

# Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

<b>Company</b>	Suncor	
<b>Location</b>	Fort McMurray, Alberta	
<b>Date Posted</b>	From: 2018-12-13	To: 2050-01-01
<b>Job</b>	Type: Full-time	Category: Resource Sector

### Description

LOCATION: Fort McMurray, Alberta (CA-AB)

JOB NUMBER: 26724

Why you should join us: Are you a mining engineer or computer science professional who is looking to make improvements in real-time? In this dynamic industry leading position, you will support the development of autonomous haul systems (AHS), the most innovative mining technology in the country, while offering technical mentorship to support our AHS needs from a systems perspective. You will use your expertise to:

- Ensure the system health of the MMS Dispatch and FrontRunner systems using a dedicated approach and solve problems as necessary

- Lead and plan system upgrades in order to minimize impact to the operation

- Implement and sustain cyber security and redundancy measures to align with our standard methodologies

- Implement processes and procedures to maintain data quality while facilitating data transfers

- Work alignment between autonomous haul systems and staffed dispatch systems

We'd like to review your application if you have... Must-haves (minimum requirements):

- A degree in mine engineering or computer science

- A valid driver's licence and a clean driving record

- Alignment with our values of: safety above all else, respect, raise the bar, commitments matter and do the right thing

- The ability to anticipate potential problems and check for out-of-the-ordinary conditions, as well as having a strong sense of accountability

- A continuous improvement mindset and are able to seek greater knowledge and understanding of the systems, process and hazards in the workplace

Preference for: SAP:ENG

- Autonomous haulage systems and Komatsu FrontRunner application experience

- Mine automation experience with two or more years of experience administering mining fleet management system applications

- Automation application management and administration experience outside of mining will be considered

- Working knowledge of SQL programming and database architecture

Where you'll be working, your work schedule, and other meaningful information:

- You will work out of our Base Plant Mine in Fort McMurray, Alberta

- Hours of work are a regular 40-hour work week, Monday to Friday

- If you reside outside of Fort McMurray, relocation of your primary residence to within 60 km of Fort McMurray is mandatory. Relocation support will be provided; we offer highly competitive housing assistance to eligible individuals

Why Suncor? We are Canada's leading integrated energy company with a business portfolio that includes oil sands development and upgrading, offshore oil and gas production, petroleum refining, and product marketing under the Petro-Canada brand. Our global presence offers rewarding opportunities for you to learn, contribute, and grow in a variety of career-building positions. We live by the value of safety above all else; do it safely, or don't do it. Our strong track record of growth and a focus on sustainability mean tremendous potential for the future. Learn about

our mission, vision and values. In addition to rewarding job opportunities, we offer an attractive employee package, including:
