

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Job	Type: Full-time	Category: Resource Sector

Description

LOCATION: Fort Hills Wood Buffalo, Alberta (CA-AB)

JOB NUMBER: 27124

Why you should join us: Are you an electrical expert? In this role, you will support the maintenance and operations of Fort Hills fixed plant assets, evaluating and assisting when required, predictive maintenance (PdM) condition monitoring of electrical equipment and assist the Reliability team with trending to predict failure modes. You will build a strong reliability and maintenance culture within the area maintenance groups and increase the integrity of site electrical systems. You will use your expertise to:

- Review, develop and update equipment preventative maintenance
- Work with our Reliability Engineering group to ensure that predictive and preventative maintenance plans and strategies are in place to maximize the area equipment reliability and availability
- Assist with the scope development for major and turnaround maintenance events
- Pursue maintenance learning through continuous improvement of maintenance procedures
- Monitor new project design and construction with input into the design
- Participate in post-event failure analysis and root cause discussions and help develop solutions
- Ensure that preventative maintenance guidelines are adhered to
- Maintain complete and accurate records associated with the technical and preventative aspects of this position
- Review and apply continuous improvement opportunities to safe work practices, procedures and standards to ensure safe and reliable work execution
- Develop knowledge of site craft to a higher level of understanding with respect to operation and maintenance utilizing Infrared thermography and motor condition monitoring

We'd like to review your application if you have:

- Must-haves (minimum requirements):
- Eight years' experience working in mining, oil and gas, pulp and paper, petro-chemical or a similar heavy industrial environment
- Experience in the 600 V, 5 kV, and 13.8 kV equipment ranges
- An Electrical Engineering Technologist Diploma with a Valid Alberta Journeyman Certificate or an Interprovincial Red Seal Journeyman Certificate in an electrical trade
- A deep understanding of maintenance and operations as related to the safe and efficient production of bitumen
- A thorough understanding of PLCs, VFDs, UPS, motor control centers, switchgear, motorized actuated valves, relays, motors, substation and other electrical equipment
- Familiarity with computerized management systems
- Strong initiative, problem solving and analytical skills
- A valid driver's licence and a clean driving record
- Alignment with our values of: safety above all else, respect, raise the bar, commitments matter and do the right thing

Preference for:

- Demonstrated strong social, organizational and communication skills
- Ability to work under pressure, multitask and meet deadlines in a fast paced environment
- Ability to work independently and within a diverse trades team in a safety focused environment
- Ability to seek greater knowledge about the systems, processes and hazards in the workplace to understand not just

what you do but why you do it

- Desire to ask what could go wrong and check for out-of-the-ordinary conditions and learn to anticipate potential problems

- Continuous improvement mindset with strong analytical and decision-making capacity

Where you'll be working, your work schedule, and other meaningful information:

- You will work out of our camp-based Fort Hills mining site, located in Alberta's Athabasca region, 90 kilometres north of Fort McMurray, Alberta

- The shift schedule is a 7 days on /7 days off rotation (7 days on, 7 days off, 12 hour shifts)

- This position is safety sensitive
