

# Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

### Description

LOCATION: Mississauga, Ontario (CA-ON)

JOB NUMBER: 27522

Why you should join us: We've created a brand new role within our Strategy Integration and Development team to directly influence our executive Downstream Leadership Team in making strategic decisions regarding our business. It's an exciting time to join this team, as our Downstream business is continuing to grow, and we want you to be an integral part, helping to shape our strategic and focused growth. We want you to bring your related business knowledge and market insights to act as an idea-generator and influential advisor to help develop our strategies and direction by providing analyses and recommendations to guide the long-term growth of our business. If you are looking for a fantastic opportunity to make significant contributions and advance your career, this role is for you! You will use your expertise to:

- Synthesize your knowledge of refined products and related commodity markets into an accurate, consistent and insightful forecast, regulatory and climate change policy impacts on business, bio-fuels and renewable energy, and translate outlooks into strategic implications for Suncor
- Understand and quickly conceptualize business strategies to deliver insightful, fact-based analyses comparing various competitive strategies and identifying distinguishing tactics that can increase our share of the market
- Engage and lead studies with external consultants to develop a keen understanding of our key competitor's approach to market and tactics to benchmark and improve our business model
- Evaluate announcements, regulatory news, quarterly investor reports, financial filings and press releases of key competitors (and also those outside of our industry) and put into context their impact on our Downstream strategy/business
- Conduct and maintain a SWOT analysis on each of our competitors and develop analytical tools to quantify their position relative to key energy industry competitive benchmarks and impact to Suncor
- Link qualitative and quantitative information on global energy and refined products supply/demand trends, logistics, pricing information, competitor strategies, Mergers Divestitures and Acquisitions (MD&A) activities, etc. to provide proprietary market insights aimed at improving our competitiveness
- Play a key role in the annual strategic offsite meeting that aims to inform Senior leaders on fundamental strategic differentiators amongst key competitors and find opportunities for Suncor to sharpen/augment or reframe its downstream strategy

We'd like to review your application if you have: Must-haves (minimum requirements):

- 10 years of Downstream-related business experience with growing accountabilities and responsibilities including leadership experience
- An additional five years of market intelligence gathering, strategic planning or other relevant experience
- A post-secondary degree in engineering, science, business, or economics, or another related discipline
- Extraordinary story-telling and interpersonal skills and you are able to communicate complex, detailed concepts widely to differing audiences in a concise, compelling manner both verbally and in writing
- A proven ability to handle contending priorities and meet tight deadlines in a dynamic environment while not compromising attention to detail
- Alignment with our values of: safety above all else, respect, raise the bar, commitments matter and do the right thing

Preference for:

- Hands-on experience with scenario planning, strategy development and competitive analysis
- Knowledge of key energy trading strategies and the renewable energy market
- Strong economic and financial research, analysis and modeling skills
- Working towards or completion of an MBA

Where you'll be working, your work schedule, and other meaningful information:

- You will work out of our Downstream head office in Mississauga, located at 2489 North Sheridan Way
- Hours of work are a regular 40-hour work week, Monday to Friday, with the potential for extended work hours based on business needs
