

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Job	Type: Full-time	Category: Resource Sector

Description

LOCATION: Fort Hills, Wood Buffalo, Alberta (CA-AB)

JOB NUMBER: 27538

Why you should join us: Are you a certified Welder who is passionate about safety and do you want to work on our Fort Hills mining project Fort Hills, which is located approximately 90 kilometres north of Fort McMurray, has a capacity of approximately 194,000 barrels per day (bbls/d), approximately 103,000 bbls/d net to Suncor. In this role, you will support the mine maintenance team by safely maintaining the heavy equipment fleet to ensure optimum reliability and availability of the assets. You will use your expertise to:

- Execute all planned and break in welding repairs, build-up for line-boring and fabrication, as required
- Responsible for minor welding and/or structural repairs on P&H 4100 and Hitachi EX8000 Shovels, Komatsu Haul trucks, Caterpillar auxiliary equipment as well as various other light vehicle and support equipment
- Provide preventative maintenance support in the field and in the shop
- Assist with essential rigging and operate rigging for moving equipment with mobile equipment and lifting devices
- Examine welds and ensure that they meet standards and/or specifications
- Participate in post-event failure analysis and root cause discussions to contribute to developing solutions
- Remove and replace major components (engines, transmissions, wheel motors, etc.)
- Operate company-provided equipment and vehicles in a safe manner
- Read work orders, technical manuals, blueprints and diagrams related to the work assignment; write and review work scope and hazard/risk assessment
- Clean and prepare base metals using bevellers, grinders, air nibblers, and cleaning chemicals
- Evaluate maintenance procedures, and recommend changes or modifications for improved efficiency and adaptability to setup and production

We'd like to review your application if you have: Must-haves (minimum requirements):

- Two years of post-apprenticeship experience maintaining mining heavy equipment
 - Two years of experience working on P&H 4100 BOSS A/C Electric Cable shovels and Komatsu A/C Ultra Class Electric Haul Trucks
 - The ability to calculate dimensions and tolerances using knowledge of mathematics and instruments such as micrometers and Vernier calipers
 - Expert knowledge of mechanics, shop mathematics, metal properties, layout, and machining procedures is essential
 - Knowledge of SMAW, OAC, MIG, FCAW and PAC and heat treatment processes
 - Strong motivation and initiative, with a strong work ethic
 - Proven problem solving, troubleshooting and analytical skills and validated ability to multitask in a dynamic environment
 - A Valid Alberta Journeyman Welder Certificate or an Interprovincial Red Seal Journeyman Welder Certificate
 - A High School Diploma or General Education Diploma (GED)
 - A valid driver's licence and a clean driving record
 - Alignment with our values of: safety above all else, respect, raise the bar, commitments matter and do the right thing
- Preference for:
- A Canadian Welding Bureau (CWB) certification

- Working knowledge of SAP

Where you'll be working, your work schedule, and other meaningful information:

- You will work out of our camp-based Fort Hills mining site, located in Alberta's Athabasca region, 90 kilometres north of Fort McMurray, Alberta
- The shift schedule is a seven days on/seven days off rotation (seven days on, seven days off, seven nights on, seven nights off; 12-hour shifts)
- You will be required to perform some heavy lifting, use ladders and work on elevated work sites such as scaffolds and towers with the ability to perform in a variety of different environments both indoor and outdoor as well as within confined spaces
- This position is safety sensitive

Why Suncor We are Canada's leading integrated energy company with a business portfolio that includes oil sands development and upgrading, offshore oil and gas production, petroleum refining, and product marketing under the Petro-Canada brand.
