

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Company	Suncor	
Location	Fort McMurray, Alberta	
Date Posted	From: 2019-03-19	To: 2050-01-01
Job	Type: Full-time	Category: Resource Sector

Description

LOCATION: Fort McMurray, Alberta (CA-AB)

JOB NUMBER: 27909

Job OverviewIf you are a professional with a background in rotating equipment and vibration analysis we have the opportunity for you! You will be responsible for conducting machinery diagnostics utilizing various technologies such as vibration monitoring, ultrasonic, and oil analysis to ensure the extraction rotating assets perform at a high level and reach the agreed availability targets in a cost effective and sustainable manner.Key Accountabilities

- Provide troubleshooting support for emerging risks related to rotating assets on a daily/weekly basis and responding to timely mitigating actions for the area business unit
- Lead equipment investigations for rotating assets, generate reports, and assign corrective actions to prevent reoccurrence
- Build SAP work notifications for repair, replacement or upgrade of rotating equipment as required based on field observations
- Build repair scopes for onsite and offsite repairs such as pumps, gearboxes, motors, compressors, pulleys and breakers
- Oversee the collection of vibration and oil data from contractors to vet concerns and ensure monthly key performance indicator compliance
- Prepare maintenance check sheets for shop/field repairs for the Rotating Quality Assurance Program
- Perform quality control for critical shop overhauls of equipment
- Oversee rotating equipment activities on major outages and turnarounds from scope development through to execution focusing on reliability improvements, quality field execution
- Support the extraction on-call schedule as required

Required QualificationsExperience and Education:

- Three or more years of hands-on experience troubleshooting rotating equipment
- Category I or II Vibration Certification
- Valid Alberta Journeyperson Certificate or an Interprovincial Red Seal Journeyperson Millwright Certificate and High School Diploma or General Education Diploma (GED); or an engineering degree
- Possess a valid driver's licence and a clean driving record

Skills and Knowledge:

- Strong knowledge of Computerized Maintenance Management Systems (CMMS) including SAP, Machinery Health Manager (MHM), EB/LL
- Advanced knowledge of vibration and lubrication collection and analysis
- You collaborate with others to achieve the best results and deliver the most value
- You continually seek greater knowledge about the systems, processes and hazards in the workplace to understand not just what you do but why you do it
- You constantly ask what could go wrong and check for out-of-the-ordinary conditions and learn to anticipate potential problems

Working Conditions

- This position has been identified as safety sensitive

- This position is located at our Base Plant location
- If you reside outside of Fort McMurray, relocation of your primary residence to within 60 km of Fort McMurray is mandatory
- Relocation support will be provided; we offer highly competitive housing assistance to eligible candidates
