

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Link's Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

LOCATION: Fort McMurray, Alberta (CA-AB)

JOB NUMBER: 27758 Why you should join us: Are you interested in working with the latest in server virtualization and networking technology in an industrial environment? If yes, we have a role for you! We want you to join our dynamic team and share your expertise to enable safe and reliable production. Our objective is to provide a robust, secure, and accessible infrastructure for our process automation networks in a fast paced environment and we want you to be a part of this! You will use your expertise to: Maintain, monitor, and improve the security, reliability, and performance of our large network that includes a number of virtual machine clusters. Integrate process control applications with business network infrastructure. Continuously improve existing processes for supporting internal stakeholders.

We'd like to review your application if you have: Must-haves (minimum requirements): Five years of related experience in an industrial setting. A post-secondary education in a related field. The proven ability to anticipate potential problems and use critical thinking skills to identify and eliminate root causes. Alignment with our values of: safety above all else, respect, raise the bar, commitments matter and do the right thing. Superior collaboration skills that enables you to build solid, positive relationships with diverse groups. A continuous improvement mindset and are able to seek greater knowledge and understanding. A valid driver's licence and a clean driving record.

Preference for (advanced knowledge areas): Physical and virtual network operations, standards, and fundamental principles. Networks and complementary technologies such as Cisco Catalyst/Nexus and Cisco ASA/FirePower. Capacity and performance management tools such as VMware vCenter Operations and Solar Winds. Physical and virtual servers operation and maintenance (VMware vSphere, Microsoft Server & SQL).

- Data management and protection software such as RepliWeb and Acronis

Where you'll be working, your work schedule, and other meaningful information: You will work out of our Base Plant Operations in Fort McMurray, Alberta. Hours of work are a regular 40-hour work week, Monday to Friday, with the potential for extended work hours based on business needs. This position is safety sensitive. If you reside outside of Fort McMurray, relocation of your primary residence to within 60 km of Fort McMurray is mandatory. Relocation support will be provided; we offer highly competitive housing assistance to eligible individuals.

Why Suncor: We are Canada's leading integrated energy company with a business portfolio that includes oil sands development and upgrading, offshore oil and gas production, petroleum refining, and product marketing under the Petro-Canada brand. Our global presence offers rewarding opportunities for you to learn, contribute, and grow in a variety of career-building positions. We live by the value of safety above all else – do it safely, or don't do it. Our strong track record of growth and a focus on sustainability mean tremendous potential for the future. Learn about our mission, vision and values. In addition to rewarding job opportunities, we offer an attractive employee package, including:

- Competitive base salary, compensation programs, and an annual incentive program
- Flexible benefits package
- Rewarding pension and savings plans
