

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

Integration Coordinator Reference Code: 55202

Location: Canada (CA) - Calgary, AB Job Category: Project Services Employment Type: Employee Full-time Relocation Eligibility: This position is not eligible for our relocation program Application Deadline: 07/18/2019 We all need energy. It warms our homes, cooks our food, gives us light, and gets us where we need to go. It also improves our quality of life in countless other ways. At TC Energy, our job is to deliver that energy to millions of people who depend on it across North America. And we take our job very seriously. Guided by our values of safety, integrity, responsibility and collaboration, we develop and operate our facilities safely, reliably and with care for our impact on the environment. With our presence across the continent, our people play an active role in building strong communities. We're proud of how our hard work and commitment sets us apart and benefits society, every day. We're looking for new team members who share our values and are ready to take on exciting challenges. The opportunity Reporting to the Manager of Gas Project Operations Integration and Commissioning, we're looking for an Integration Coordinator to join our team. In this role, your primary focus will be supporting our Integration Managers and project and operations teams through the integration and turnover of projects from implementation into TC Energy Gas Operations. This is critical to ensuring that all project deliverables are complete and acceptable to operations. You will also be involved in providing Operations and Maintenance risk and cost modelling support throughout all phases of Pipe and Energy green field project development and asset acquisitions. This role is a great opportunity for exposure to the technical, business, and commercial aspects of our business. What you'll do

- Work with internal and external stakeholders to ensure project turnover expectations are identified, aligned, and met and that any change impacts are monitored and reported
 - Support and coordinate project integration and turnover of projects from project implementation into operations following established processes and requirements while ensuring related schedules are monitored and maintained
 - Prepare integration management documents such as scorecards, project turnover memorandums, reports, and project organization charts and facilitate review meetings with stakeholders to communicate progress, highlight areas of concern and expedite solutions
 - Provide risk and cost modelling, estimating, and analysis support on Greenfield and Acquisition projects related to life cycle organizational, operations, and maintenance costs / risks as well as integration and organizational build up costs for new and existing assets
 - Assist with decision modelling for Business Development opportunities
 - Assist in the preparation of Operating Cost due diligence reports and senior management presentations as needed
 - Development and maintenance of standards and approaches related to cost and risk modelling and analysis
 - Maintain a database of operating costs, risks, and asset performance used to assess assets across Canada Gas
- Minimum Qualifications
- Completion of post-secondary education in a relevant field such as Commerce, Economics, Project Management or related
 - University bachelor's degree or technical college diploma will be considered
 - Four (4) or more years of applicable work experience
 - An alternate combination of education and experience may be considered
- Preferred Qualifications

- Project Management Professional designation
- Understanding of overall project stage gates and project management methodologies
- Strong interpersonal, influencing and communication skills
- Self-starter, with a pro-active approach to problem identification and resolution
- Demonstrated organizational skills and ability to effectively manage multiple and conflicting priorities
- Risk management, operations budgeting, and evaluations experience
- Knowledge of cost modelling, estimation, statistics, and scenario analysis
- Experience with formal decision analysis tools and techniques
