

# Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

<b>Company</b>	Suncor	
<b>Location</b>	Fort McMurray, Alberta	
<b>Date Posted</b>	From: 2019-05-06	To: 2050-01-01
<b>Job</b>	Type: Full-time	Category: Resource Sector

### Description

LOCATION: Fort McMurray, Alberta (CA-AB)

JOB NUMBER: 28594

Why you should join us: Want to work with and be responsible for maintaining the biggest mining equipment as a Heavy Equipment Mechanic at Suncor? If you have both on and off-road certification and are passionate about safety, maintaining heavy equipment, building positive relationships and working within a very dynamic team environment, then this role is definitely for you! You will use your technical knowledge and strong understanding of equipment maintenance to support our mine maintenance team in Fort McMurray, by safely maintaining our heavy equipment fleet to ensure optimum reliability and availability of the assets. Think you're up for the challenge? You will use your expertise to:

- Safely perform maintenance on and operate company provided equipment
- Run maintenance repairs on our equipment, including troubleshooting hydraulic systems, engines, transmissions, and electronics
- Remove and replace major components (engines, transmissions, wheel motors, etc.)
- Ensure that preventative maintenance guidelines are adhered to and maintain complete and accurate records for the technical and preventative aspects of this position
- Participate in post-event failure analysis and root cause discussions to develop solutions
- Execute all planned maintenance inspections and repairs on all types of heavy and auxiliary equipment
- Build practices and procedures for repairs and implement approved modifications for the heavy equipment and auxiliary fleet

We'd like to review your application if you have... Must-haves (minimum requirements):

- Two years of post-apprenticeship experience maintaining mining heavy equipment
- Experience with Caterpillar (CAT) auxiliary equipment, Komatsu haul trucks, Komatsu and Hitachi hydraulic shovels and/or CAT 7495 & P&H 4100 cable shovels
- A valid Alberta Journeyman Heavy Equipment Technician (Off Road) and Truck and Transport (On Road) Certificate or an Interprovincial Red Seal Journeyman Heavy Duty Equipment Mechanic/Technician (Off Road) and Truck and Transport (On Road) Certificate; attach your Journeyman or red seal tickets with your application to be considered
- A High School Diploma or General Education Diploma (GED)
- Possess a valid driver's licence and a clean driving record
- Alignment with our values of: safety above all else, respect, raise the bar, commitments matter and do the right thing

Preference for:

- Prior experience with SAP
- Exceptional safety mindset and a strong dedication to continuous improvement within safe work practices, procedures, and standards to ensure safe and reliable work execution; you do not take or tolerate shortcuts and if the procedure is incorrect, you fix it
- Superior mechanical aptitude and troubleshooting skills
- Proficient with computers to retrieve data for equipment maintenance
- Strong work ethic, motivation and initiative and you can make decisions with integrity in order to achieve the best results and deliver the most value
- The proven ability to provide personal and technical mentorship to other team members by building strong, positive

relationships

Where you'll be working, your work schedule, and other meaningful information:

- You will work out of our Base Plant Mine in Fort McMurray, Alberta
- The shift schedule is a six days on/six days off rotation (three days on, three nights on, six days off; 12-hour shifts)
- This position is safety sensitive
- You will be required to perform some heavy lifting, use of ladders and working on elevated work sites such as scaffolds and towers with the ability to perform in a variety of different environments both indoor and outdoor as well as within confined spaces
- If you reside outside of Fort McMurray, relocation of your primary residence to within 60 km of Fort McMurray is mandatory

**Why Suncor** We are Canada's leading integrated energy company with a business portfolio that includes oil sands development and upgrading, offshore oil and gas production, petroleum refining, and product marketing under the Petro-Canada brand.
