

# Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

<b>Job</b>	Type: Full-time	Category: Resource Sector

### Description

LOCATION: Calgary, Alberta (CA-AB)

JOB NUMBER: 28415Why you should join us:Student positions (including co-ops and interns) at Suncor are more than just a work term. They provide you with significant and meaningful work experiences to help enable you to figure out where you want your career to go &ndash; better yet, many of our students go on to become permanent Suncor employees after they graduate! You will work side-by-side with some of the most talented people in the energy industry, and your work assignments and mentoring will offer you outstanding academic and career growth.You will be part of a strategic technology program de-risking the incorporation of alternative energy and other value adds into mature in situ assets. In this role you will define practical steps to increase value, while reducing CO2 emissions.You will use your expertise to:Progress a range of novel technology ideas through a gated technology development processCombine a wide range of engineering, research, project economics, and interpersonal skills to drive projects towards success, or early termination

We&rsquo;d like to review your application if you have&hellip;Must-haves (minimum requirements):Current enrolment in a formal co-op/internship program or engineering program at an accredited post-secondary institution, and returning to full-time studies after the work term(Attach your transcripts with your application and indicate your work term availability)Alignment with our values of: safety above all else, respect, raise the bar, commitments matter and do the right thing

Preference for:A strong quantitative background in problem solving using engineering, mathematics, statistics, or physicsExperience with creating a business case using project economicsResearch experience including well-developed report writing and presentation skillsExperience with Microsoft applicationsA strong understanding of thermodynamics, fluid dynamics, and heat transferFamiliarity with geophysical, reservoir engineering or geological data/conceptsCollaboration skills that enable you to build strong, positive relationships with diverse groupsA strong degree of curiosityA continuous improvement mindset and you are able to seek greater knowledge and understanding of the systems, process and hazards in the workplace

Where you&rsquo;ll be working, your work schedule, and other meaningful information:You will work out of our Calgary head office, located in the Suncor Energy Centre at 150 &ndash; 6th Ave S.W.This is a 4 or 8 month work term, from September 2019 &ndash; December 2019 or September 2019 - April 2020

Why SuncorStart your career at Canada&apos;s leading integrated energy company with a&#160;business portfolio&#160;that includes oil sands development and upgrading, offshore oil and gas production, petroleum refining, and product marketing under the Petro-Canada brand. Our global presence offers rewarding opportunities for you to learn and grow in a variety of career-building positions. We live by the value of safety above all else &#8211; do it safely, or don&#8217;t do it. Our strong track record of growth and a focus on&#160;sustainability&#160;mean tremendous potential for the future.&#160;Learn about our mission, vision and values.Stay connected to us:
