

# Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Link's Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

<b>Job</b>	Type: Full-time	Category: Resource Sector

### Description

LOCATION: Fort McMurray, Alberta (CA-AB)

JOB NUMBER: 29308 Why you should join us: To be a truly sustainable company, we are always looking for more effective ways of managing our operations. Innovation and technology adoption are important tools in our safety and efficiency efforts and we were the first to introduce autonomous haul system (AHS) technology into oil sands mining. Over the next five years, we expect to deploy more than 150 autonomous haul trucks, through a phased implementation, which will be one of the largest investments in electric autonomous vehicles in the world. We are looking for a highly motivated leader with a strong project management background to coordinate the complex changeover of the existing Millennium Suncor mining operation to Komatsu's FrontRunner; autonomous mining platform. Click here to watch our video on Technology at Suncor: Autonomous Haulage Systems. You will use your expertise to:

- Align all project work streams to ensure key deliverables meet project timelines in a safe, orderly manner
  - Coordinate change management activities and facilitate collaboration between all mining groups in delivery of the implementation plan
  - Collaborate with mining experts within the organization to align multiple dependent work streams
  - Provide project oversight for implementation work as the deployment is carried out, including cost and schedule tracking
  - Manage project work stream interdependencies to ensure schedule compliance
  - Identify potential risks to the implementation schedule to coordinate and communicate follow up responses for mitigation
  - Ensure compliance with all work place rules, procedures and occupational health and safety (OH&S) codes
- We'd like to review your application if you have... Must-haves (minimum requirements):
- Experience in a dynamic mining or large scale construction environment
  - Strong background in project execution and stewardship
  - Experience managing large scale project budgets
  - Project scheduling experience with the ability to highlight key interdependencies and critical path work
  - Background in project risk evaluation and management of treatment plans
  - A post-secondary degree with a preference for engineering
  - Computer proficiency, specifically in Microsoft Office and SAP
  - Strong collaboration skills that enable establishment of strong, positive relationships with diverse groups
  - The ability to anticipate potential problems and monitor for out-of-the-ordinary conditions, as well as having a strong sense of accountability
  - A desire to learn new things and inspire change in others
  - Alignment with our values of: safety above all else, respect, raise the bar, commitments matter and do the right thing

Where you'll be working, your work schedule, and other meaningful information:

- You will work out of our Base Plant Mine in Fort McMurray, Alberta
- Hours of work are a regular 40-hour work week, Monday to Friday
- If you reside outside of Fort McMurray, relocation of your primary residence to within 60 km of Fort McMurray is mandatory. Relocation support will be provided; we offer highly competitive housing assistance to eligible individuals SAP:IND
