

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

Infrastructure and Logistics Specialist Reference Code: 59148

Location: Canada (CA) - Calgary, AB Job Category: Project Management; Project Services; Supply Chain/Procurement Employment Type: Employee Full-time Relocation Eligibility: This position is not eligible for our relocation program Application Deadline: 07/28/2019 We all need energy. It warms our homes, cooks our food, gives us light, and gets us where we need to go. It also improves our quality of life in countless other ways. At TC Energy, our job is to deliver that energy to millions of people who depend on it across North America. And we take our job very seriously.

Guided by our values of safety, integrity, responsibility and collaboration, we develop and operate our facilities safely, reliably and with care for our impact on the environment. With our presence across the continent, our people play an active role in building strong communities. We're proud of how our hard work and commitment sets us apart and benefits society, every day. We're looking for new team members who share our values and are ready to take on exciting challenges. The opportunity This is an exciting time for TC Energy, with exponential growth expected throughout our North American operations, specifically with the construction of the Coastal GasLink (CGL) Pipeline Project in British Columbia (BC). The CGL Infrastructure and Logistics (I&L) team is responsible for providing support to the CGL Implementation team. As the I&L Specialist, you will play a lead role in supporting the execution of pipeline segments. This is an important position and your contributions will be critical to the implementation of the project by ensuring continuous availability of required infrastructure & logistics services safely and on time. This role is based in Calgary, AB but will require you to travel to field locations in northern BC throughout project construction. What you'll do

- Be the single point of contact to the Project Managers (PMs) for one to two pipeline construction work package(s) for all matters pertaining to I&L scopes and responsibilities
- Coordinate with PMs and other members of CGL to identify requirements, establish expectations and service levels, and provide progress updates
- Lead the development and implementation of plans for assigned scopes of work, which will include camps, offices, security, medical, foresters and timber sales
- Work with I&L Coordinators on planning and implementation of their responsibilities to ensure delivery on priorities such as telecom, line pipe, stockpile sites, rail sidings, helicopter services, vehicles, mobile inspection, material delivery, lessons learned, etc.
- Coordinate with contractors (prime, designated service, and other) to ensure timely and accurate reporting, develop and implement plans, monitor progress and take proactive corrective actions to ensure smooth delivery of required services
- Provide recommendations with appropriate rationale on changes, originating from the contractors and/or from CGL for the assigned scopes
- Monitor the spend and generate / seek approval on trends and coordinate payment of invoices
- Keep the I&L team, PMs, and other CGL team members updated on status of various services, performance levels, issues, mitigation plans and risks, etc. by developing reports and presentations and through periodic meetings
- Define and deliver on a personal, team and project level value delivery and success statement pertaining to this role

Minimum Qualifications

- Bachelor's degree in Business / Commerce, Engineering or another related field
- Six (6) or more years of related work experience (i.e. similar position, management of small scale projects and/or role in supply chain)
- An alternative combination of relevant education and experience may be considered

Preferred Qualifications

- Project Management Professional designation or certification
- Believes in and demonstrates self-accountability and initiative
- Exceptional planning and organizational skills
- Strong interpersonal skills and ability to build relationships at various levels of the company, within and outside the CGL team, including external stakeholders
- Excellent communications skills, including ability to create and deliver presentations to a variety of audiences
- Driven to meet agreed upon results and ability to proactively provide simple and practical solutions
- Ability to learn and adapt, must be able to manage work and act as a leader as well as follow direction and processes as required
- Believe in and contribute to developing and maintaining a cohesive and fully integrated team

*This position requires candidates to:

- Have and maintain a valid driver's license
- Provide a driver's abstract for review

About our business

Approximately 670 kilometres, the Coastal GasLink (CGL) pipeline will safely deliver natural gas from the Western Canadian basin in northeast B.C., Dawson Creek area, to the proposed LNG Canada facility on the West Coast near Kitimat, B.C. From there, LNG Canada will prepare the natural gas for export to global markets by converting it to a liquefied state – also known as LNG. To learn more about the Coastal GasLink pipeline project, visit our website. Apply now! Apply to this posting by 07/28/2019 using reference code 59148. You must apply through our jobs system at jobs.tcenergy.com. Only applications submitted through our system will be acknowledged. Use a desktop or laptop computer to avoid system errors. TC Energy is an equal opportunity employer.
