

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

Mechanical Technician Reference Code: 59157

Location: Canada (CA) - Niagara Falls, ON Job Category: Trades/Technical Employment Type: Employee

Full-time Relocation Eligibility: This position is eligible for our domestic relocation program Application Deadline:

07/26/2019 We all need energy. It warms our homes, cooks our food, gives us light, and gets us where we need to go.

It also improves our quality of life in countless other ways. At TC Energy, our job is to deliver that energy to millions of people who depend on it across North America. And we take our job very seriously. Guided by our values of safety, integrity, responsibility and collaboration, we develop and operate our facilities safely, reliably and with care for our impact on the environment. With our presence across the continent, our people play an active role in building strong communities. We're proud of how our hard work and commitment sets us apart and benefits society, every day. We're looking for new team members who share our values and are ready to take on exciting challenges. The opportunity Reporting to the Area Manager, Maple & Niagara, you will be responsible for providing technical services and skills to ensure that various mechanical systems and equipment are effectively maintained and operated in accordance with internal and external standards, policies, and procedures. You will also collaborate with various teams and departments and be accountable for the development and implementation of asset optimization and performance strategies. * The regular work schedule for this position will be 40 hours per week. This position is overtime eligible based on operational needs, outage support, and response to unplanned events and is part of an on-call rotation. What you'll do

- Perform mechanical maintenance and inspection on aero derivative/industrial gas turbines, centrifugal and reciprocating compressors, perform bore scope inspections, auxiliary power units APU's, pumps, air compressors and other associated equipment used in natural gas compression
- Responsible to participate in mechanical inspections, overhauls and PM in the Maple & Niagara Region and to complete Job Quality Assurance documents JQA's, work authorization/job safety analysis along with other electronic documentation
- Adhere to all of the Company's Operating Procedures (TOPS)
- Support other Operating Areas within the Maple & Niagara Region as required
- Troubleshoot equipment problems utilizing technical reference manuals and documents
- Supervise and coordinate third party contractors
- Maintain strict adherence to Commercial Vehicle Regulations

Minimum Qualifications

- Journeyman Millwright or Heavy-Duty Mechanic accreditation
- High school diploma (or equivalency) is required, completion of a diploma from a college or technical school is an asset
- Minimum 5 years of relevant related experience, preferably in oil & gas

Preferred Qualifications

- Experienced with the interpretation of technical reference documents
- SAP experience
- Solid analytical and troubleshooting skills
- Strong interpersonal and organizational skills

- Demonstrable effective written and verbal communication skills
- Proven ability to work effectively alone and in a team environment

*This position requires candidates to:

- Have and maintain a valid driver's license
- Provide a driver's abstract for review
- Successfully complete a pre-employment medical screening, including drug and alcohol testing
