

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Link's Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

Project Manager - TQM Projects Reference Code: 59570 Location: Canada (CA) - Montreal, QC

Job Category: Facilities; Project Management

Employment Type: Employee Full-time

Relocation Eligibility: This position is eligible for our domestic relocation program

Application Deadline: 01/28/2020 We all need energy. It warms our homes, cooks our food, gives us light, and gets us where we need to go. It also improves our quality of life in countless other ways. At TC Energy, our job is to deliver that energy to millions of people who depend on it across North America. And we take our job very seriously. Guided by our values of safety, integrity, responsibility and collaboration, we develop and operate our facilities safely, reliably and with care for our impact on the environment. With our presence across the continent, our people play an active role in building strong communities. We're proud of how our hard work and commitment sets us apart and benefits society, every day. We're looking for new team members who share our values and are ready to take on exciting challenges. The opportunity TC Energy's Canada Gas business unit is seeking an experienced Project Manager to join our team. Reporting to the Manager of Eastern Projects, in this role you will be responsible for leading project development activities associated with Trans Quebec and Maritimes (TQM) projects. Your responsibilities will be accomplished through collaboration with technical experts, shared service departments and various other internal and external stakeholders. This role is based in Montreal, QC but relocation timelines are flexible to meet the needs of the business and successful candidate. What you'll do

- Supervise and manage development of TQM Projects, subject to overall management and direction of the TQM Project Steering Committee
- Manage the interface between partners (Enbridge and TC Energy) to ensure adherence to partnership Division of Responsibility (DOR) guidelines
- Liaise with internal and external groups to understand a project's objectives and determine the necessary scope deliverables, cost, schedule and quality requirements
- Manage project activities including budget, schedule and reporting functions in accordance with project reporting requirements, delivering the required levels of quality and risk control
- Develop project plans and key project documents including: project execution plan; stakeholder engagement plan; communication plan; risk management plan; change management plan; resource plan; procurement plan; safety management plan; construction management plan; Scope of Work, Request for Proposal (RFP), regulatory application, etc.
- Lead a team to meet the objectives of the project, providing guidance and direction as required
- Work with Supply Chain through full life cycle of external contractor engagement including development of supply chain strategies, scope of work, and contracts with external service providers
- Lead the development of capital cost estimates, including appropriate allowances (risk, contingency and escalation)
- Maintain regular communication with various project stakeholders and manage stakeholder and client expectations
- Develop appropriate strategies for successful implementation throughout the project phases
- Prepare formal reports, and provide senior leaders with project update
- Oversee project design and facilitate technical reviews to ensure all applicable specifications, codes and legal and regulatory requirements are met
- Coordinate activities to deliver timely and efficient internal reviews
- Supervise site construction emphasizing safety and quality, project turn-over and commissioning

Minimum qualifications

- Bachelor's Degree or technical diploma in a related field with a Project Management Professional (PMP) certification
- 15 or more years of related project experience
- Bilingual in English and French, both written and verbal fluency is a strong asset
- An alternate combination of education and experience may be considered
- Familiar with Project Management processes, tools and techniques and proven project management skills with a demonstrated track record of success

Preferred qualifications

- Relevant experience in oil and gas or petrochemical industry, working for owner organization
- Ability to influence others not directly under your supervision
- Sound planning and decision-making ability in a busy and changing work environment
- Excellent interpersonal skills, including strong communication, conflict resolution, negotiation and leadership
- Customer focused and proven ability to align project objectives with commercial drivers
- Commitment to health, safety, environment and quality
- Strong team orientation, demonstrating a high level of cooperation
- Proven analytical and critical thinking skills

- Proven ability to manage projects that have competing challenges and timelines
- Strong understanding of Quebec provincial regulatory processes
- Experience with compression projects and Hydro Quebec

*This position requires candidates to:

- Have and maintain a valid Driver's License
- Provide a driver's abstract for review
- Occasionally travel within Canada for business, training, conferences, etc. As such the successful candidate must be able to provide and maintain applicable documentation to this affect

About our business Our 92,600-kilometre (57,500-mile) natural gas pipeline network is positioned in two of the most prolific and lowest cost basins in North America – the WCSB and the Appalachian Basin. Our systems are well placed to meet the continent's growing demand for clean-burning natural gas. We supply more than 25 per cent of the clean-burning natural gas consumed daily across North America. To learn more, visit our website. Apply now! Apply to this posting by 01/28/2020 using reference code 59570. You must apply through our jobs system at jobs.tcenergy.com. Only applications submitted through our system will be acknowledged. Applications may be submitted using a mobile device or a desktop / laptop computer. TC Energy is an equal opportunity employer. Learn more Visit us at TCEnergy.com and connect with us on our social media channels for our latest news, employee stories, community activities, and other updates. Thank you for choosing TC Energy in your career search. * Depending on qualifications, the successful candidate may be offered a position at a more appropriate level and/or ladder. * Applicants must have legal authorization to work in the country in which the position is based with no restrictions. * All positions require background screening. Some require criminal and/or credit checks to comply with regulations. * TC Energy is committed to provide employment opportunities to all qualified individuals, without regard to race, religion, age, sex, color, national origin, sexual orientation, gender identity, veteran status, or disability.
