

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Job Type: Full-time Category: Resource Sector

Description

Industrial Controls Integrity TechnologistReference Code: 59642

Location: Canada (CA) - Calgary, AB Job Category: EngineeringEmployment Type: Employee Full-timeRelocation Eligibility: This position is not eligible for our relocation programApplication Deadline: 09/11/2019 We all need energy. It warms our homes, cooks our food, gives us light, and gets us where we need to go. It also improves our quality of life in countless other ways. At TC Energy, our job is to deliver that energy to millions of people who depend on it across North America. And we take our job very seriously. Guided by our values of safety, integrity, responsibility and collaboration, we develop and operate our facilities safely, reliably and with care for our impact on the environment. With our presence across the continent, our people play an active role in building strong communities. We're proud of how our hard work and commitment sets us apart and benefits society, every day. We're looking for new team members who share our values and are ready to take on exciting challenges. With one of North America's largest energy infrastructure portfolios, no one powers day-to-day life like TC Energy. We share technical, stakeholder and operating expertise across all of our operations and projects. The opportunityAs part of the Industrial Controls Integrity team you will be primarily responsible for enabling the advancing technical competency and cultural maturity of process safety within our Industrial Controls systems across TransCanada. This role will support Industrial Controls process safety initiatives to collect and analyze our incidents and events to enhancing our Process Safety through enabling learning throughout the organization. If you are passionate about joining a strategic group and making an impact by identifying, assessing, and mitigating risk to our infrastructure to ensure safety performance excellence in line with TransCanada's belief that "Zero is Real", then this role may be for you. Are you up for the challenge What you'll doUnder the direction of the Manager of Industrial Controls Integrity Program, the successful candidate will:

- Collect and analyze of process safety incidents and events
- Support incident investigations
- Develop, implement and maintain awareness and training material related to incidents and events
- Support incident and event trending and reporting

Minimum Qualifications

- Technical degree or Bachelor Degree in Engineering (Electrical/Chemical preferred)

- Basic understanding of mechanical, electrical and control systems
- Basic investigation skills
- Effective writing and communication skills
- Four+ years experience working with Facilities systems and controls

Preferred Qualifications

- Process Safety awareness
- Business acumen related to TransCanada's energy and pipeline businesses
- Basic experience in risk assessment, process hazard analysis, and related field activities (commissioning, pre-start up safety reviews)
- Technical cross functional experience with facility integrity disciplines and risk assessment
- Basic knowledge of controls related software, SCADA systems, advisory systems
