

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

CompanyGeneral Tool & Die Ltd.LocationMississauga, Ontario

Date PostedFrom: 2020-12-31To: 2021-06-29JobType: Full-timeCategory: Trades

Job Start Date As soon as possible

Job Salary \$23.00/hour, Working 40 Hours/wk.

Languages English

Description

Established in 1987, General Tool & Die has a long history of designing, building and maintaining tools for stamper's in Southern Ontario and the surrounding region. We strongly believe in keeping all phases of a tools build process in-house whenever possible, so that we have complete and full control over the quality of workmanship being put into the tool. The tools we build have ranged from the simplest single station hand-transfer blanking dies to complex multi-station progressive dies featuring double-action cam stations and more. We are in need of skilled CNC machinist to maintain and grow our operation to the next phase in providing excellent services to our clients.

Experience

2 years or more CNC machinist experience.

Education Requirements

Secondary (high) school graduation certificate or equivalent experience.

Essential Skills

Read and interpret engineering drawings, blueprints, charts and tables, Set up and adjust production machineries/tools, Fit and assemble components and machine parts to close tolerance, Maintain, repair and calibrate precision measuring instruments, Document and report deviations from specifications and tolerances, Maintain inspection records and complete inspection reports, Verify dimensions of parts machined using precise measuring instruments (e.g., micrometers, calipers), Compute dimensions and tolerances and measure and lay out work pieces, Set up, operate and maintain a variety of conventional and computer numerically controlled (CNC) machine tools, Verify dimensions of products for accuracy and conformance to specifications using precision measuring instruments

Weight Handling

Up to 23 kg (50 lbs)

Additional Skills

Surface grinders, Tool grinders, Computer numerical control (CNC) machines, Boring machines, Milling machines, Drill presses, Electrical discharge machine (EDM), Filing machines, Form cutting

machines, 3D pantographs, Broaching machine, Shapers, Robotic equipment and systems, Computer-aided design (CAD)

How to Apply

Please send your resume to: 5959 Shawson Drive, Mississauga, ON L4W 3Y2 or email to: generaltoolhr@gmail.com
