

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

Our researchers and community partners are actively inviting applicants for a new Postdoctoral Fellowship focusing on Health Research. This Postdoctoral Fellowship will be offered through McMaster University's distinguished School of Nursing (SoN) which is part of our largest and most research intensive faculties, the Faculty of Health Sciences (FHS). We are seeking a highly qualified individual to join our team to engage in developing an exciting, new cross-disciplinary research program about health and social inclusion. Position Summary The Post doctorate Fellow, Health Research will work in partnership on The Carer's Project, and will be responsible for overseeing an innovative, multi-methods study aimed at addressing mental health concerns and social isolation among caregivers/carepartners. This position will be under the supervision of Dr. Sheila Boamah. The successful candidate will also have opportunity for involvement in a number of other ongoing projects. Visit <https://ilivee.ca> for more details. Position Description The Post Doctorate Fellow, Health Research will join a multidisciplinary team, comprising the researchers at McMaster University, and community partners, to work on The Carer's Project. The project is supported by an Insight Grant (SSHRC) that aims to improve the quality of life of caregivers (care partners) by finding practical interventions to effectively address their social and mental health needs. The successful incumbent will gain expertise in innovative qualitative designs and mixed methods. Depending on interest and qualifications, the incumbent may have the opportunity to engage in other research projects led by the Principal Investigator, Dr. Sheila Boamah, deliver guest lectures with the School of Nursing at McMaster University and co-supervise trainees and student research. This role will also have opportunity to collaborate with community partners and be intimately involved in the planning and coordination of research activities in various off-campus facilities. Required Qualifications A successful incumbent will require the following:

- Ph.D. in Nursing or a health-related field (e.g. research focus on aging, health systems, or health services research),
- strong methodological, qualitative and quantitative background,
- strong track-record of collecting, analyzing and publishing data.

Desired Assets

- Experience in community engagement,
- Knowledge of advanced statistical methods.

Additional Information

- The term of the fellowship is set for 12 months with the option of an additional 12 months.
- The salary is \$55,000 per year, plus benefits. Please visit McMaster's Total Rewards Website for additional information.
- The successful candidate will receive support from the McMaster Education Research, Innovation and Theory (MERIT) Program.
- The position is available immediately, and preference will be given to applicants who can begin within a short timeframe.
