

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

Active Directory SpecialistReference Code: 60680

Location: Canada (CA) - Calgary, AB Job Category: Information Technology/SystemsEmployment Type: Employee

Full-timeRelocation Eligibility: This position is not eligible for our relocation programApplication Deadline: 02/02/2020

We all need energy. It warms our homes, cooks our food, gives us light, and gets us where we need to go. It also improves our quality of life in countless other ways. At TC Energy, our job is to deliver that energy to millions of people who depend on it across North America. And we take our job very seriously.Guided by our values of safety, integrity, responsibility and collaboration, we develop and operate our facilities safely, reliably and with care for our impact on the environment. With our presence across the continent, our people play an active role in building strong communities.We're proud of how our hard work and commitment sets us apart and benefits society, every day. We're looking for new team members who share our values and are ready to take on exciting challenges.The opportunityOur Digital Workplace team is evolving to meet the needs of our growing business and we are expanding to support our Information Services department. Reporting to the Manager of the Digital Workplace Team in the Digital Transformation Office organization, the Active Directory Specialist is an expert in administrating and running major infrastructure components. You will be responsible for the daily operations and well-being of TC Energy's major infrastructure services such as Active Directory, Exchange, Azure AD and Office 365.As an experienced Active Directory Specialist, you will provide support and maintenance of our Active Directory and Exchange environments. You will monitor and manage the Enterprise Services platform and perform upgrades and enhancements as required. This role will also work closely with compute, storage, security, and network operations staff to provide a continuous uptime experience.* This role may require travel across borders with a requirement of a valid passport or visa equivalent.What you'll do

- Interface with external service providers and vendors to proactively implement, troubleshoot, and monitor the Active Directory and Exchange environments
- Install, configure, administer, and maintain enterprise Exchange environments
- Proactively monitor and manage the Enterprise Services application suite which consists of: Active Directory, Azure AD, Office 365, Hybrid Exchange 2010/Online
- Monitor email flow and manage spam filter rules in ProofPoint
- Collaborate, assist and provide guidance to the other IT support teams as required
- Ensure compliance with regulatory requirements
- Participate in major infrastructure projects
- Collaborate with internal operations staff when troubleshooting complex issues
- Collaborate with third party service providers
- Raise incidents to third party support as required (i.e. MS Unified Support, ProofPoint, etc.)
- Develop and maintain operating procedures and protocols
- Provide assistance with Business Continuity Planning and Data Center Contingencies
- Ensure the security of TC Energy systems and respond promptly to security incidents
- Plan and coordinate major system upgrades

Minimum Qualifications

- Completion of post-secondary education such as a bachelor's degree or diploma with a focus in Computer

Science or a related discipline

- Must have four (4+) or more years of related experience in Server Support
- Knowledge and hands on experience managing Microsoft Exchange Online/2016/2013/2010
- Previous experience managing Active Directory, Group Policy, Office 365, Azure
- Solid understanding and hands on experience supporting server suites of Windows 2003, Windows 2008, Windows 2012, and Windows 2016
- Proven ability to communicate and interact effectively with clients, support staff, vendors, and service providers

Preferred Qualifications

- MTA (Microsoft Technology Associate), MCSA/MCSE certification is preferred
- VMWare experience is considered an asset
- Demonstrated ability to troubleshoot issues in complex environments
- Demonstrated ability to work independently or as a team when necessary
- Excellent interpersonal skills combined with the ability to utilize those skills during interactions with peers, service partners, and vendors
- Detail-oriented with strong organization and prioritization skills of individual workload to meet tight timelines
