

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

Director, EnvironmentReference Code: 60809

Location: Canada (CA) - Calgary, AB Job Category: Health, Safety, EnvironmentEmployment Type: Employee

Full-timeRelocation Eligibility: This position is eligible for our domestic and/or cross border relocation programApplication

Deadline: 10/20/2019 We all need energy. It warms our homes, cooks our food, gives us light, and gets us where we need to go. It also improves our quality of life in countless other ways. At TC Energy, our job is to deliver that energy to millions of people who depend on it across North America. And we take our job very seriously. Guided by our values of safety, integrity, responsibility and collaboration, we develop and operate our facilities safely, reliably and with care for our impact on the environment. With our presence across the continent, our people play an active role in building strong communities. We're proud of how our hard work and commitment sets us apart and benefits society, every day. We're looking for new team members who share our values and are ready to take on exciting challenges. The opportunityThe Department of Environment, Land and Indigenous Relations (ELIR) is responsible for managing critical risks and for governance for TC Energy in the United States and Canada. ELIR has a governance role with respect to Environment, Land and Indigenous Relations in Mexico. The risks ELIR manages relate to those impacting access to land, managing legal rights in our key areas (with the assistance of legal counsel) and managing critical reputational risk for TC Energy. Often, the ELIR team are the first (and only) contact stakeholders and rightsholders have with TC Energy. Given this responsibility, the team of 400 members must be agile, strategic, innovative and willing to manage issues across multiple projects, operations, geographies and jurisdictions, with an eye to maintaining a consistent TC Energy approach. The ability to negotiate with and influence senior stakeholders across multiple departments, regulators and government bodies and third parties is critical to the success of this role. Reporting to the Vice-President, Environment, Land and Indigenous Relations, the Director, Environment Canada, will be a member of the ELIR Leadership Team, currently comprised of the VP ELIR and seven Directors, who provide strategic direction and governance leadership for ELIR. The Director must be a strategic thinker who views the challenges and opportunities in the Environment portfolio as one of their key deliverables to the ELIR client groups and to TC Energy Executive and Senior Leadership. What you'll do

- Deliver Environment services across our three Business Units (Gas, Liquids and Power and Storage) in Canada
- Partner with Regulatory, Projects, Operations, Public Affairs, Communications and Legal groups to support their work including overseeing all environmental planning and permitting activities, reporting requirements, participation in regulatory applications, writing of ESA and EIS, and participation as a subject matter expert on regulatory panels in Canada
- Provide full spectrum of development, execution, and support for Business Unit projects (both capital and operations) including participation in Project Development Activities, prospecting of new commercial opportunities and strategic advice as the subject matter expert for Environment
- Provide strategic leadership to a team of technically skilled managers with emphasis on developing stronger strategic alignment. Clear correlation of Environment to business outcomes and objectives, and highlighting ELIR risks and opportunities to be considered during business decision making
- Develop expertise in the Environment leadership team on strategy
- Develop expertise in the Environment leadership team on participation in panels and other presentations to senior levels of government, regulators and internal leaders in TC Energy

- Lead the Environment Program which is one of three ELIR programs within TC Energy's management system
- Develop and assist Business Units in implementing the Environment Program and in managing all legal and voluntary reporting in Environment
- Management review of regulatory applications and present as a witness for regulatory tribunals.

Minimum qualifications

- An undergraduate degree in a related discipline is required
- An MBA, Masters degree or other professional designation would be an asset
- A minimum of 15 years' experience in leadership roles demonstrating the following competencies:
- Building and leading effective teams, collaboration, business partner relationships, decision quality, good judgment, composure, and managing vision and purpose

- Strong and recent experience in leadership roles demonstrating the following competencies:
- People management experience including recruitment, development, coaching, mentoring, and performance management
- Strong business acumen and demonstrated success in contributing to business results.

Preferred qualifications

- Experience with energy infrastructure including regulatory experience and experience in Environment and Land a strong preference
- Experience with managing and building departmental budgets
- Regulatory experience and relationships with external regulators
- A strong visionary and strategic leader with high integrity and follow through
- Demonstrated expertise in managing environment and business relationships
- Ability to consistently identify improvement opportunities and the initiative and courage to implement the improvements
- Strong negotiating and conflict management skills with multiple stakeholders who have differing priorities including business unit and functional group leadership
- Ability to develop strategic and disruptive ideas with specific focus on environment
- Ability to navigate ambiguity, apply systems and processes and simplify complex situations
- An adaptable, candid, open person with a history of "walking the talk" on values
- Ability to work under pressure, meet required deadlines, and manage and organize processes and procedures.
