

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

Damage Prevention AnalystReference Code: 60849

Location: Canada (CA) - Calgary, AB Job Category: EngineeringEmployment Type: Employee Full-timeRelocation

Eligibility: This position is not eligible for our relocation programApplication Deadline: 01/27/2020 We all need energy. It warms our homes, cooks our food, gives us light, and gets us where we need to go. It also improves our quality of life in countless other ways. At TC Energy, our job is to deliver that energy to millions of people who depend on it across North America. And we take our job very seriously. Guided by our values of safety, integrity, responsibility and collaboration, we develop and operate our facilities safely, reliably and with care for our impact on the environment. With our presence across the continent, our people play an active role in building strong communities. We're proud of how our hard work and commitment sets us apart and benefits society, every day. We're looking for new team members who share our values and are ready to take on exciting challenges. The opportunityThe Damage Prevention and Pipeline Integrity Program Team within the Technical Centre is evolving to meet the needs of our growing business. TC Energy's Damage Prevention team is accountable for the safe, reliable and compliant operation of TC Energy's natural gas and oil pipeline assets in North America. As a Damage Prevention Analyst, the successful applicant will be responsible for the evaluation, and governance of the Damage Prevention threat management program and related activities. This position provides the successful candidate with opportunity to directly impact the safe operation of the pipeline system and be involved in influencing company policies and procedures. The ideal candidate will have experience in pipeline construction, damage prevention and pipeline operations as a program. What you'll Do

- Contribute to damage prevention governance reporting, which will include analysis and review of trends, programs, and quality assurance of data points based on your comprehensive knowledge
- Provide input and support to the development of a Damage Prevention Governance KPI dashboard (e.g. data definition document and data aggregation), and contribute to the action and communication plan
- Effectively communicate insights and plans to cross-functional team members and management across the Technical Centre and within each Business Unit
- Ensure the applicable governing regulations are met in Canada, US and Mexico
- Work with regional representative on various initiatives and investigations
- Ensure documentation is completed
- Interact with Internal stakeholders across all Business Units, as well as outside contractors
- May be required to represent TC Energy on external industry committees

Minimum Qualifications

- 4 or more years of related experience is required
- Other combinations of education and experience will be considered to offset the requirement noted above
- Program management experience, preferably related to damage prevention and pipeline integrity
- Complete analysis of the program and communicate recommendations for optimal function
- Familiar with Damage Prevention Regulations in North America
- Experience in incident investigations and related documentation
- Results oriented with strong identification and initiation of continuous improvement opportunities and the ability to manage change

- Strong written and oral communication skills, with an emphasis on tact and diplomacy; ability to communicate with technical and non-technical stakeholders
- Excellent interpersonal skills and ability to work collaboratively with functional cross-functional and technical teams to build effective working relationships
- Experience in working on team initiatives with strong execution, implementation and collaboration skills

Preferred Qualifications

- Intermediate to Advance experience and proficiency with various business software applications (Power BI, Microsoft Excel, SharePoint, Office, Visio)
- Proven systems thinking and strong analytical, process and problem resolution skills
