# Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

## Description

  Business Analyst - SCADA EngineeringReference Code: 62744  Location: Canada (CA) - Calgary, AB

Job Category: Business Development

Employment Type: Employee Full-time

Relocation Eligibility: This position is not eligible for our relocation program

Application Deadline: 01/27/2020  We all need energy. It warms our homes, cooks our food, gives us light, and gets us where we need to go. It also improves our quality of life in countless other ways. At TC Energy, our job is to deliver that energy to millions of people who depend on it across North America. And we take our job very seriously. Guided by our values of safety, integrity, responsibility and collaboration, we develop and operate our facilities safely, reliably and with care for our impact on the environment. With our presence across the continent, our people play an active role in building strong communities. We&rsquo;re proud of how our hard work and commitment sets us apart and benefits society, every day. We&rsquo;re looking for new team members who share our values and are ready to take on exciting challenges. The opportunityWe are currently seeking a highly collaborative and keen Business Analyst to work in our RTS &amp; SCADA Engineering Central team. As a member of RTS &amp; SCADA Engineering Central team, the successful candidate will support the business operations team -  responsible for project support and process improvement. This individual has proven skills, competencies and capacity to provide a continuous improvement mindset and support the team with their initiatives. What you&rsquo;ll do

- Participate in project governance and internal approval processes
- Facilitate document control management for projects team including SharePoint set up and on-going maintenance, and management of centralized project email account
- Prepare monthly scorecard and cost reporting in collaboration with Project Managers
- Facilitate project set up and close out activities in SAP
- Prepare monthly project forecasts in SAP and track actual costs compared to estimates to identify any increases or decreases to estimated completion
- Work with the business to develop and implement process improvements and ensure the quality of all required project deliverables
- Engaging in productive interaction and collaboration with other areas of TransCanada as well as

with internal clients/providers
- Contribute to problem solving, continuous improvement and standardization efforts for business-related work processes
- Collaborate with project teams during all phases of a project to assure standards are met

Minimum Qualifications
- Undergraduate Degree in Business, Commerce, Computer Science, or a related discipline with a minimum of 2+ years of related work experience
- Analytical mindset and a strong desire for problem solving
- Strong communication skills, with a customer service focus
- Diligent and quality focused
- Intermediate to advanced experience with various business software applications (Microsoft Excel, SharePoint, MS Teams, MS Office Suite, Power BI, Visio)

Preferred Qualifications
- Experience with SAP (PS Module) or similar
- Ability to be engaged for coaching, training, and mentoring
- Possess excellent organizational and planning skills and can manage competing priorities under tight deadlines
- Self-starter; takes initiative to deliver high quality results, and committed to continuous improvement
