

# Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

### Description

Manitoba Hydro has been named as one of Canada's Top 100 Employers and one of Manitoba's Top Employers for 2018! This is the 8th consecutive year that we have won these awards.

#### Why Great Benefits

- Three weeks of accrued paid vacation after the first year, working toward a maximum of seven weeks paid vacation
- Competitive salary and benefits package
- Pension and working conditions that provide for a balanced approach to work, family life and community
- Nine day work cycle which normally provides every other Monday off

Manitoba Hydro is a leader among energy companies in North America, recognized for providing highly reliable service and exceptional customer satisfaction. Join our team of Manitoba's best as we continue to build a company that supports innovation, commitment and customer service.

We are seeking a dynamic IT project management professional to work in Winnipeg, Manitoba. You will report to the Supervisor of Portfolio Management and will be responsible for managing all tasks related to project management and project integration including initiating, planning, executing, and closing multiple small to medium sized projects within the Information Technology Services Division.

#### Responsibilities:

- Manage IT projects to scope, schedule and quality following the standard PM methodology within Manitoba Hydro policies and practices.
- Ensure that project management processes align with the related corporate processes including Supply Chain Management, Capital Planning, Finance, etc.
- Plan, organize and control the execution of activities and resources of the project delivery team.
- Monitor, evaluate, and report on project performance (budget, cost, schedule, scope, quality, risk, and issue).
- Manage selection and use of external consultants, including preparation/ analysis of requests for proposals, integration of work with other project teams and corporate staff, as well as the overall management of their defined tasks.
- Understand the impact and ensure effective communication with multiple stakeholders across the corporation.

#### Qualifications:

-A four year degree in Computer Science (Honours), Computer Engineering, or a related discipline from a university of recognized standing, plus a minimum of five years directly related experience in information technology which includes a minimum of one year directly related experience in project management

OR

-A two year diploma in Computer Technology or related discipline from an institute of recognized standing with a minimum of seven years directly related experience in information technology which includes a minimum of one year directly related experience in project management.

-Completed a minimum of 15 hours of Project Management education that meets the PMI requirements for PMP certification.

-Comprehensive understanding of project management with demonstrated application of project management methodology.

-Working knowledge of Project Management tools, including Microsoft Project and a system development lifecycle

methodology such as PMBOK or Macroscopic.

- Demonstrated ability to communicate effectively, both orally and in writing, with staff at all levels. Able to produce professional business reports and applicable documentation and deliver presentations to all levels.

- Demonstrated ability and experience with leading various types and sizes of Information Technology software projects.

- Strong teamwork skills with the desire and ability to direct project team staff and mentor junior staff.
