

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

Analyst, Process Engineering

One (1) permanent, full-time position â€“ Hamilton, ON

Donâ€™t miss this opportunity to join Canada Post and apply your professional and technical expertise in the delivery of value stream improvements, operational performance (cost, quality, time) and resource optimization (equipment, people, money) initiatives.

As an Analyst, Process Engineering, you will apply Industrial Engineering methods and techniques in the area of mail sortation, transportation and delivery, taking into consideration equipment, facilities and human resources to improve the measures associated with cost, quality, service, safety and people at Canada Post. Participating in various project teams within the Region, you will analyze proposals to determine viability, operational impact and return on investment, and apply the principles of Lean, Six Sigma and Change Management to all work and Project Management methods to promote time urgency and productivity.

YOUR QUALIFICATIONS

You bring a successful track record to the role of Analyst, Process Engineering:

â€¢ A university or college degree/diploma in a related field.

â€¢ 1 to 3 years of related work experience.

â€¢ Working knowledge of Microsoft Office applications including Excel, Word and PowerPoint, or similar software, and database development using MS Access, or similar software.

â€¢ Ability to prepare 2D cad facility and work centre layouts using AutoCad.

â€¢ Basic project management skills.

â€¢ Systems/Process Management skills.

â€¢ Understanding of Lean principles, data analysis methods, process mapping and engineering economics.

â€¢ Skill at identifying customer needs and at designing business processes and solutions to meet customer requirements.

â€¢ Adeptness at customer engagement.

â€¢ Ability to participate in some local travel (approximately 40%).

NOTE: An Eligibility List will be created.

How to Apply

To apply for this permanent, full-time position (Job ID 94361) via the Canada Post Careers website, click Apply Now!

Canada Post is committed to employment equity and encourages applications from women, Aboriginal people, persons with disabilities and visible minorities.

If you are contacted by Canada Post regarding a job opportunity or testing, please advise if you require accommodation.
