

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

Applied Research Professional - Smart Factory (3 Years Term Position) (Term)

Technology Access Centre for Aerospace and Manufacturing

Full-Time, Term Position Available with Possibility of an Extension

Red River College is a leader in applied learning and innovation. Our talented team of employees is passionate about education, innovation and student success. We offer competitive salaries, extensive benefits, and the opportunity for personal and professional growth in a rewarding career.

"Reporting to the Manager, Technology Access Centre for Aerospace and Manufacturing (TACAM), Red River College (RRC), the Applied Research Professional will establish, support, enhance and grow applied research and technology development activities at the College's new Smart Factory. The incumbent will act as a catalyst to help the local community develop innovative advanced manufacturing processes, technologies, applications and knowledge base utilizing Smart Factory capabilities including robotics, automation, additive manufacturing, sensor technologies, data acquisition, systems control, industrial networking, high performance computing and internet of things (IoT). This individual will coordinate the activities of researchers, industry collaborators, faculty and students working on technology demonstration, applied research, knowledge creation and capstone projects. In addition, the incumbent will develop, initiate, secure funding for, contribute technical expertise in, and manage research activities; and will develop new strategic and client-supported applied research and technology development projects. The Applied Research Professional will support the mandate and metrics established with funding agencies and network with both research/business partners to strengthen applied research partnerships; maintain oversight of relevant applied research project activities and deliverables; and prepare appropriate applied research records and reports.

REQUIRED QUALIFICATIONS

- Post-Graduate degree in a field related to advanced manufacturing or computer / electronics / software / instrumentation engineering.
- Experience in the integration of electro-mechanical systems, robotics integration, big data analytics, networking of manufacturing systems or implementation of IoT solutions.
- Significant industrial experience working in aerospace or manufacturing sector
- Experience in performing and/or leading research and development activities
- Demonstrated leadership skills
- Experience in an applied research and / or project management role
- Ability to undertake multiple tasks with limited supervision
- Strong verbal and written communication skills
- Strong networking skills
- Strong interpersonal skills
- Values Diversity, Equity, and Inclusion
- Commitment to lifelong learning

ASSET QUALIFICATIONS

- Experience in developing business / research proposals for grants from public and private sectors
- Experience in business development

CONDITIONS OF EMPLOYMENT

- Applicants must be legally entitled to work in Canada
- This position may be required to work evenings and/or weekends

How to Apply

Applicants are to clearly demonstrate how they satisfy the selection criteria in their written submissions and must identify the competition number they are applying for in the subject line of the email

Apply to Red River College by email: humanresources@rrc.ca

An eligibility list may be created for similar casual, part-time, full-time, and term positions

We seek diversity in our workplace. Aboriginal persons, women, visible minorities and individuals with disabilities are encouraged to apply.

Competition #: 2019-025
