

# Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

### Description

Ministry of Water, Land and Resource Stewardship

Multiple locations, BC (Hybrid)

Flexible work options are available; this position may be able to work up to three (3) days at home per week as per the telework agreement.

Species at Risk Biologist

\$73,855.42 - \$84,134.34 annually

The Ministry of Water, Land and Resource Stewardship works with other natural resource sector ministries to achieve British Columbia's goals of reconciliation, economic development and environmental sustainability. The Terrestrial Species Recovery Branch resides within the Resource Stewardship Division of the Ministry and strives to implement effective conservation solutions for British Columbia's at-risk flora, fauna and ecological communities for the continuing benefit of future generations of British Columbians.

The incumbent will work with provincial government partners, as well as partners from other governments, and non-governmental organizations to support the implementation of conservation actions to achieve population and habitat recovery goals and objectives for terrestrial species and ecosystems at risk.

### Experience

Qualifications for this role include:

- Bachelor of science degree in biological sciences, plus four (4) years related experience, OR
- Master of science or higher in biological sciences, plus two (2) years of related experience.
- Registered (or immediately eligible) as a Registered Professional Biologist (RP Bio) in B.C. with the College of Applied Biology within six months of employment.

Preference may be given to applicants with one (1) or more of the following:

- Experience leading staff in project or field settings.
- Experience working with First Nations communities and/or facilitating First Nations consultations or negotiations.

- Experience working with R, ArcGIS, and/or other tools for data management, analysis and visualization.
- Experience writing and reviewing provincial and federal recovery strategies for at risk species.
