

# Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

<b>Company</b>	TC Energy	
<b>Location</b>	Calgary, AB	
<b>Date Posted</b>	From: 2020-09-01	To: 2050-01-01
<b>Job</b>	Type: Full-time	Category: Resource Sector

### Description

Business Analyst - Graduate Opportunities Reference Code: 72229 Location: Canada (CA) - Calgary, AB

Job Category: Accounting/Finance; Business Development; Marketing/Trading

Employment Type: Employee Full-time

Relocation Eligibility: This position is eligible for our domestic relocation program

Application Deadline: 10/18/2020 We all need energy. It warms our homes, cooks our food, gives us light, and gets us where we need to go. It also improves our quality of life in countless other ways. At TC Energy, our job is to deliver that energy to millions of people who depend on it across North America. And we take our job very seriously.

Guided by our values of safety, integrity, responsibility and collaboration, we develop and operate our facilities safely, reliably and with care for our impact on the environment. With our presence across the continent, our people play an active role in building strong communities.

We're proud of how our hard work and commitment sets us apart and benefits society, every day. We're looking for new team members who share our values and are ready to take on exciting challenges. The opportunity TC Energy's Canadian Natural Gas Pipelines unit has openings in its New Grad Early Career Development Program, with anticipated start dates in May 2021. In this program, you'll spend approximately 12 months in three different Business Analyst roles.

Business Analyst New Grads will rotate through various teams based on business needs and will report to the manager of their respective area. Your work plans will be monitored and modified as needed by the Canada Gas Program Coordinator. Business Analysts will participate in performance reviews on an annual cycle to ensure performance. Through each rotation, you'll obtain a broad understanding of TC Energy and have varying degrees of analytical and customer-focused responsibility. Potential teams and responsibilities are as follows:

Contracts, Billing & Credit

- Prepare and issue transportation contracts for various pipeline systems and manage day-to-day contractual and operational relationships with customers
- Provide external and internal customers with contract and/or transactional information and reporting
- Calculate transportation exposure for customers and work with Counterparty Risk to ensure TC Energy has sufficient financial assurances for each customer
- Prepare and issue transportation invoices and produce monthly reporting
- Conduct analysis for enhancing and maintaining business processes and systems

Regulatory Research & Analysis

- Provide regulatory research analysis support with respect to TC Energy filings, interventions and policy development
- Monitor and analyze regulatory issues related to the development of TC Energy gas pipeline projects and existing assets
- Provide economic analysis of regulatory decisions
- Respond to research requests from within TC Energy Gas Transmission

Gas Pipeline Operations

- Develop awareness and understanding in Pipeline Control Room Operations
- Participate in the maintenance planning and execution process of Field Operations
- Participate in the Pipeline Integrity management processes
- Develop awareness and understanding of the Major Equipment Management process
- Participate in the Optimization of business processes for Gas Pipelines Operation
- Participate in the implementation of Field Projects
- Developing, maintaining and reporting on operations budgeting
- Develop awareness and understanding of the Regulatory Implications and Obligations of Pipeline Operations

#### Commercial West & Markets & Supply

- Strategically advance the interests of NOVA Gas Transmission (NGTL) through identification, analysis, and implementation of commercial activities
- Create and maintain productive relationships with customers

#### Nominations & Allocations

- Manage transactions of shippers and interconnecting pipelines
- Develop an understanding of the operational aspects of the various Canadian pipelines owned and operated by TC Energy
- Work with customers to resolve operational issues on tight deadlines
- Varying shifts may be required as the team maintains a Customer Call Centre which operates 15 hours seven days a week

#### Other teams within Natural Gas Pipelines

- In addition to the above teams, you may also rotate through one or more of the following areas: Commercial Sales, Rates, Business Development and Strategy or Customer Collaboration
- Minimum Qualifications
- Must be on track to complete a Bachelor of Commerce or Business Administration by Spring 2021
- Up to a maximum of two years of professional discipline-related work experience, not including co-op or internship work terms
- Exhibit a safety mindset, in a professional and personal setting
- Strong business acumen and ability to apply skills in a commercial environment
- Legally entitled to work in Canada by way of Canadian Citizenship, Permanent Residency or a valid work permit
- Preferred Qualifications
- Knowledge of and/or experience in the oil and gas sector, and especially pipeline industry, is considered an asset
- Aptitude for development of leadership, management and decision-making skills are an asset
- Ability to work effectively in a highly dynamic environment with changing priorities under tight time constraints
- Demonstrated analytical skills and problem-solving capability
- Strong presentation, interpersonal, and written communication skills
- Team player with the ability to collaborate and interact with other groups
- Resilient and self-motivated
- Passion for excellence, backed by a track record of accountability and integrity
- Flexible, self-reflective and adaptable to change
