

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

Gas SCADA Team Lead Reference Code: 72232 Location: Canada (CA) - Calgary, AB

Job Category: Engineering

Employment Type: Employee Full-time

Relocation Eligibility: This position is not eligible for our relocation program

Application Deadline: 08/10/2020 We all need energy. It warms our homes, cooks our food, gives us light, and gets us where we need to go. It also improves our quality of life in countless other ways. At TC Energy, our job is to deliver that energy to millions of people who depend on it across North America. And we take our job very seriously. Guided by our values of safety, integrity, responsibility and collaboration, we develop and operate our facilities safely, reliably and with care for our impact on the environment. With our presence across the continent, our people play an active role in building strong communities.

We're proud of how our hard work and commitment sets us apart and benefits society, every day. We're looking for new team members who share our values and are ready to take on exciting challenges.

The opportunity

Our Central SCADA team is evolving to meet the needs of our growing business and we are expanding our presence in Calgary, Alberta to support our centralized SCADA systems. We are seeking a Gas SCADA Team Lead who will provide support and deliver on system availability, reliability and, uptime targets for TC Energy's mission critical SCADA systems that our Canada and Mexico Gas Control Centers rely on to safely deliver the energy people need every day. This individual has the proven skills, competencies and capacity to provide technical guidance and effectively manage a fun and passionate team with deep technical knowledge. The successful candidate will provide strong leadership, collaboration and vision for Central SCADA's gas activities, as well as partner with our Gas Operations, Project, and Information Services teams to deliver on our customer's needs. This person will have the demonstrated ability to develop and sustain critical partnerships, initiate change and help the team adapt to a continuously changing environment, and align goals with strategic direction and achieving targeted business results.

What you'll do

- Lead a team of technical professionals to ensure the safe and reliable operation of SCADA assets
- Develop team members and continuously increase team effectiveness and job satisfaction
- Ensure Business Unit support meets Service Level Agreements, Budget, and System Uptime targets
- Coordinate the efficient execution of team work plans in a fast-paced environment
- Partner with Business Unit's including Operations & Engineering, Projects, and Information Services teams to support, integrate new assets, and drive improvements to the SCADA system
- Prioritize and manage risks
- Manage SCADA vendor services to ensure system integrity
- Participate in MOC creation, review, and approval process

Minimum Qualifications

- Post-secondary degree in engineering or technologist certificate/diploma
- Engineers/Technologists must be registered, or eligible to be registered, as a professional member with respective governing bodies
- Minimum 10 years of related work experience

- A combination of education and experience may be considered
- Demonstrated experience in SCADA, controls, automation or pipeline operations

Preferred Qualifications

- Proven leadership and mentoring skills with a strong ability to lead and engage a team
- Experience supporting and maintaining large-scale SCADA systems and infrastructure
- Proven planning capability required to deliver on schedule, quality and budget
- Exceptional ability organize, schedule, and complete activities on multiple priorities with varying degrees of complexity concurrently
- Familiarity with industry codes, standards and regulations in North America
- Exceptional communication and interpersonal skills as this position requires significant interaction with multiple stakeholders and extended project teams including Gas Control/Commercial Operations, Project Managers, Operations & Engineering, as well as third-party consultants and contractors
- Experience in software development and software life cycle management
- Effective conflict resolution skills
- Positive attitude rooted in our core values of Safety, Integrity, Collaboration, and Responsibility

About our business
