

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Canadian Pacific is a transcontinental railway in Canada and the United States with direct links to major ports on the west and east coasts. CP provides North American customers a competitive rail service with access to key markets in every corner of the globe. CP is growing with its customers, offering a suite of freight transportation services, logistics solutions and supply chain expertise. Visit cpr.ca to see the rail advantages of CP. **PURPOSE OF THE POSITION:** To manage, plan, organize and optimize the accessibility and efficient operation of the train control systems in use in the Operations Centers, and related field operations; to identify, evaluate and design potential improvements to these systems through the use of technology; to guide the development and implementation of train control applications; and to deliver effective and efficient training to CP's Canadian and American personnel to enable them to meet or exceed regulatory standards and CP policy. **POSITION ACCOUNTABILITIES:**

- Helps determine and validate the scope, objectives and functions of train control applications including all office dispatch systems and complementary systems used in the fields
- Coordinates and participates in the formulation of detailed specifications for new train control applications, ensuring all necessary safety, technical and user requirements are met
- Prepares and executes detailed test plans to ensure the integrity and safety of train control applications
- Triages and recreates issues found in testing or implementation of train control systems
- Participates in the design, development and implementation of train control systems, ensuring that required safety and technical specifications are adhered to
- Creates and maintains documentation specific to job functions
- Communicate and share information with coworkers and customers
- Maintains a current knowledge of the technology and methods of operational control employed in the transportation industry and keeps abreast of the latest developments in analytical and planning techniques
- Maintain subject matter databases in a current and timely manner
- Deliver training programs as required, ensuring effectiveness of content and selected training strategies

POSITION REQUIREMENTS:

- Bachelor's degree in Business or Computer Science is desirable
- 2 years' experience with CP's train control systems, especially as an RTC, Dispatcher, in train operations and/or through development of train control systems, is preferred
- Experience with JIRA and HP's ALM is desirable

- Problem solving/Strong analytics
- Decision making
- Task management
- Ability to work both independently and as a team member
- Coordinating/influencing
- Must be able to travel within Canada and the United States
- This position requires on call support on a rotating basis

WHAT CP HAS TO OFFER:

- Flexible and competitive benefits package
- Competitive company pension plan
- Employee Share Purchase Plan
- Performance Incentive Program
- Annual Fitness Subsidy

ADDITIONAL INFORMATION:As an employer with national presence, the possibility does exist that the location of your position may be changed based on organizational requirements. **Background Investigation:**The successful candidate will need to successfully complete the following clearances:

- Criminal history check
- Reference check

Management Conductor Program:Becoming a qualified conductor or locomotive engineer is the single best way for a management employee to learn the business at CP. You may be required to obtain a certification or to maintain your current certification/qualification as a conductor or locomotive engineer. CP is an equal opportunity employer committed to the principles of employment equity and inclusion. We welcome applications from all qualified individuals. All applicant information will be managed in accordance with the federal Personal Information Protection and Electronic Documents Act ("PIPEDA").
