Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

   Canadian Pacific is a transcontinental railway in Canada and the United States with direct links to major ports on the west and east coasts, providing North American customers a competitive rail service with access to key markets in every corner of the globe. CP is growing with its customers, offering a suite of freight transportation services, logistics solutions and supply chain expertise. Visit cpr.ca to see the rail advantages of CP. PURPOSE OF THE POSITION:
- As the Manager, Data Services, you will lead a team of highly skilled data analysts; infrastructure and reporting specialists in the daily operations of the Business Intelligence technology platform. This team will operate the various data warehouses, ETL tools and legacy reporting environments – continually driving up services levels while optimizing the cost of operation.
- This position will provide opportunities to participate in the building out of new technology solutions as well as the retirement and elimination of legacy BI technologies. Working with the other Delivery Teams within I.S. you will be accountable for ensuring that the needed data solutions are in place to enable their delivery.
 POSITION ACCOUNTABILITIES:
- Delivering a cost effective infrastructure delivering data warehousing services to the corporation; This include ETL, data storage and reporting.
- Ensuring uptime of Informatica ETL , Data Warehouses and on time delivery of critical reports.
- Identifying and seizing opportunities to better handle the big data requirements of CP;
- Working with other IS teams to deliver a stable and highly available reporting platform;
- Finding ways to leverage existing enterprise data and information in company's products and services;
- Identification of, and compliance with, all GRC (Governance, Risk, Compliance) aspects of BI and data management.
- Accountable and Responsible for All Ad-hoc and custom legacy reports sent to all executives, analysts, directors or Supervisors.
 POSITION REQUIREMENTS:
- Degree or equivalent in Management Information Systems, Engineering or Computer Science;
- 5-10 years of experience in IS;
- Ability to establish and maintain a high level of trust and confidence with all stakeholders – both business and IS leaders; management and staff;
- Strong understanding of data science; statistical analysis and associated information management approaches;
- Strong understanding, and experience with, I.S. operational processes as they apply to data warehousing and

mission-critical reporting services.
- Strong understanding of ITIL process.
 Competencies
- Teaching/educating/coaching/mentoring stakeholders to reinforce a mentality of continuous process improvement;
- The ability to translate business goals and metrics into business process outcomes;
- Ability to lead and manage high-performing teams;
- Ability to communicate with people at different levels, with diverse needs and agendas; related capabilities include facilitation and teaming skills;
- Ability to analyze and balance the needs of project delivery with the needs of the overall enterprise; both in the short and long term;
- Ability to quickly develop a sound understanding of the business operating model; strategies and the rail industry;
- Knowledge of finance, accounting, valuation and metrics development; possessing statistical analysis skills.

Behaviors
- Strongly influential and charismatic, especially with decision makers and operational teams;
- Highly collaborative;
- Possesses strong intellectual integrity;
- Respected as a leader;
- Driven to deliver the best operational service possible within strict cost parameters.
 WHAT CP HAS TO OFFER:
- Flexible and competitive benefits package
- Competitive company pension plan
- Employee Share Purchase Plan
- Performance Incentive Program
- Annual Fitness Subsidy
 ADDITIONAL INFORMATION:As an employer with national presence, the possibility does exist that the location of your position may be changed based on organizational requirements. Background Investigation:The successful candidate will need to successfully complete the following clearances:
- Criminal history check
- Reference check
 Management Conductor Program:Becoming a qualified conductor or locomotive engineer is the single best way for a management employee to learn the business at CP. You may be required to obtain a certification or to maintain your current certification/qualification as a conductor or locomotive engineer. CP is an equal opportunity employer committed to the principles of employment equity and inclusion. We welcome applications from all qualified individuals. All applicant information will be managed in accordance with the federal Personal Information Protection and Electronic Documents Act ("PIPEDA").
