

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

Manager - North East British Columbia Reference Code: 75346 Location: Canada (CA) - Fort Saint John, BC

Job Category: Operations

Employment Type: Employee Full-time

Relocation Eligibility: This position is eligible for our domestic relocation program

Application Deadline: 01/15/2021 We all need energy. It warms our homes, cooks our food, gives us light, and gets us where we need to go. It also improves our quality of life in countless other ways. At TC Energy, our job is to deliver that energy to millions of people who depend on it across North America. And we take our job very seriously. Guided by our values of safety, integrity, responsibility and collaboration, we develop and operate our facilities safely, reliably and with care for our impact on the environment. With our presence across the continent, our people play an active role in building strong communities. We're proud of how our hard work and commitment sets us apart and benefits society, every day. We're looking for new team members who share our values and are ready to take on exciting challenges. The opportunity

Are you passionate about safety, working in a collaborative environment, and taking initiative Are you highly motivated and a self-starter that enjoys working in a field environment As part of the Canada Gas Operations team you'll apply your critical thinking and technical skills to keep our natural gas compressor stations, measurement stations, and pipeline assets operating safely and reliably. Our Canadian Natural Gas Pipelines business includes over 43,000 kms of existing pipeline, 120 compressor stations and approximately 1,500 measurement stations across Canada. Our jobs are for innovators, thinkers, doers, team players and leaders. They're for people who dream big, seek purpose, value good teams and like to do big things. Based out of Fort St. John, British Columbia the Area Manager is primarily responsible for overseeing the safe, compliant, reliable operations and maintenance of TC Energy's Gas Assets primarily located throughout North East, British Columbia. The Area Manager will report to the Director of the Wildrose Region in the Canadian Gas organization.

What you'll do

As Area Manager you are responsible to:

- Provide leadership to continuously improve your teams' business performance in terms of health, safety and environment, regulatory compliance, reliability and productivity
- Ensure compliance with all relevant federal, provincial, and local regulatory requirements and company policies and procedures pertaining to operations and maintenance
- Ensure the effective turnover to operations of new capital projects
- Understand and manage facility risks, reliability and performance
- Understand and implement Canada Gas Operations Strategies
- Effectively manage all resources including people, finances, materials and time to ensure maximum efficiency in planning, forecasting, and implementation
- Develop and foster an environment which actively enables and encourages employee innovation, continuous improvement, and commitment to operational excellence
- Actively participate in the development of goals and objectives from Region to Area level and lead the efforts to achieve these goals in the Area
- Manage Operations and Maintenance contracts, understand Commercial Agreements and Asset Management

Plans

- Effectively work and interact with peers to optimize regional results and contribute to company success
- Ensure that TC Energy has a positive and visible image in the communities within the Area and actively engage with key Stakeholders
- Manage and coordinate emergency response with a requirement to be on-call to respond to emergency situations

As a leader in Field Operations, you will be expected to:

- Hold yourself and team members accountable to model TC Energy's values
 - Model and grow TC Energy's culture of trust, collaboration and accountability
 - Build and develop a strong, competent, proactive, and engaged team
 - Develop succession plans for your team
 - Provide your team with excellent performance feedback, appropriate rewards, recognition, and coaching
 - Continuously develop your leadership competencies while maintaining a current knowledge of company strategy, goals, and objectives
 - Ensure that company resources are effectively utilized to improve reliability and availability of our facilities and to support regional operations
 - Contribute to companywide objectives and initiatives
- As a member of the Regional Leadership Team, you will be required to:

- Work collaboratively to establish the Region's strategies, goals, and business plan
 - Commit to the execution of the Region's key priorities of excellence in the areas of Safety, Compliance, Reliability, Productivity and Culture
 - Represent the company and foster critical partnerships both internally and externally
 - Be a champion for continuous improvement and change management
- Minimum Qualifications**
- Successful completion of a bachelor's degree or Diploma in a relevant field of study
 - Ten years of relevant work experience; an equivalent combination of training and experience may be considered
 - An excellent track record of development and execution of plans
 - Excellent interpersonal and communication skills combined with the ability to utilize those skill during interactions with peers, employees, internal and external customers, and community groups
 - Experience with conflict resolution and problem-solving tools and processes
 - Experience in effective resource allocation and utilization in the financial, people and procurement areas
 - Demonstrated leadership in the health, safety, and environment, change management, employee development, performance management, and team building areas
- Preferred Qualifications**
- Knowledge and familiarity with TC Energy's business vision, strategies, practices, processes and systems
 - Related experience preferably in a managerial or leadership type setting is an asset
 - Knowledge of TC Energy's Leadership competencies and a commitment to career development
- This position requires candidates to:

- Successfully complete pre-employment medical screening including drug and alcohol testing
- Drive a motor vehicle - following a conditional offer of employment, the Company will check the motor vehicle records of any job applicant when driving is an essential job function
- Travel to and from sites to support facilities during outages and as required - this varies year to year based on planned outages (travel approximately 50% per month)
