

# Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

### Description

Southwestern Manufacturing Inc. operates in a competitive global market producing wide ranging metal based assemblies and components across a variety of industry sectors including but not limited to Mining, Oil & Gas, Crane and Drag-line Components, Agricultural, Machine building, and Heavy Equipment Manufacturing.

Southwestern Manufacturing Inc. is seeking to hire 10 permanent full-time (minimum of 40 - 50 hours per week) experienced CNC Machinists (Class A, B) to start as soon as possible.

Our regular shift rotation is days and afternoons.

Minimum 5+ years experience in a machining environment working with MasterCam and Fanuc

Minimum 5+ years experience operating CNC horizontal/vertical milling machines, CNC turning machines; machining custom, high tolerance components

Experience in 2D machining

Extensive knowledge of tooling and tooling operations

Proficient specifically in Fanuc controls

Must be proficient in manual G code programming

Thorough knowledge and working experience with blueprints from start of job to completion

Ability to operate Horizontal Boring Mills and Vertical Boring Mills efficiently

Extreme attention to detail as our industry involves tight tolerances

Secondary (high) school graduation certificate

Able to stand for extended periods work within a fast-paced environment

Shift work (days and afternoons)

Review BOMs and routers to identify areas for improvement in material and labor utilization.

Document all continuous improvement efforts and communicate those results to management in regular meetings.

Collaborate with Production and Engineering personnel to achieve optimal performance improvements.

Work with Production personal to identify potential areas of improvement.

Strong understanding of blueprint reading/geometric tolerance interpretation

Train helpers and operators to perform adjustments.

Duties:

Ability to read drawings, specifications & engineering information with minimum supervision

Excellent knowledge of tooling

Setting up and operating Computer numerical control (CNC) machines

Reading and interpreting engineering drawings, blueprints, charts and tables

Setting up and adjusting production machineries/tools

Fitting and assembling components and machine parts to close tolerance

Documenting and reporting deviations from specifications and tolerances

Maintaining inspection records and complete inspection reports

Verifying dimensions of parts machined using precise measuring instruments (e.g., micrometers, calipers)

Verifying dimensions of products for accuracy and conformance to specifications using precision measuring instruments

Computing dimensions and tolerances and measure and lay out work pieces

We offer:

Competitive wages

A comprehensive health benefits package including dental, life insurance, vision and pension plan

Opportunity to progress in a growing company

Overtime after 40 hours per week

We are committed to providing accommodations for applicants with disabilities. If you require any accommodations, please contact\* Human Resources\*and we will work with you to meet your needs.

Southwestern Manufacturing Inc. is an equal opportunity employer. In accordance with the Accessibility for Ontarians with Disabilities Act, 2005, upon request, accommodation will be provided by Southwestern Manufacturing throughout the recruitment, selection and/ or interview process to applicants with disabilities.

### **Experience**

CNC: 5 years (required)

Fanuc: 5 years (required)
