

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Link's Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Job	Type: Full-time	Category: Resource Sector	

Description

Senior Environmental Advisor - Air Emissions & Reporting Reference Code: 76821 Location: Canada (CA) - Calgary, AB Job Category: Health, Safety, Environment Employment Type: Employee Full-time Relocation Eligibility: This position is not eligible for our relocation program Application Deadline: 12/05/2020 We all need energy. It warms our homes, cooks our food, gives us light, and gets us where we need to go. It also improves our quality of life in countless other ways. At TC Energy, our job is to deliver that energy to millions of people who depend on it across North America. And we take our job very seriously.

Guided by our values of safety, integrity, responsibility and collaboration, we develop and operate our facilities safely, reliably and with care for our impact on the environment. With our presence across the continent, our people play an active role in building strong communities. We're proud of how our hard work and commitment sets us apart and benefits society, every day. We're looking for new team members who share our values and are ready to take on exciting challenges.

The opportunity

Our Sustainability team is evolving to meet the needs of our growing business and we are expanding our presence in Calgary, Alberta to support our Public Affairs & Communications department.

We are seeking a driven Senior Environmental Advisor who will report directly to the Manager, Sustainability. You will be an integral part of the team responsible for conducting technical analysis on greenhouse gas emissions and air pollutants in support of corporate environmental and sustainability reporting, as well as assisting with the development of corporate risk mitigation and sustainability strategies.

In this role you will have specific responsibilities for government mandated compliance reporting and voluntary reporting of emission sources and will be responsible for developing and supporting

implementation of strategies to sustain regulatory compliance with Federal and Provincial regulations and company best practices and procedures. You will also provide environmental expertise to various stakeholders including internal TC Energy groups as well as government staff and industry peers.

What you'll do

- Prepare government mandated air and GHG compliance reporting of emission sources, permit applications and emissions inventories; recommend control technology equipment and processes to ensure compliance with applicable regulations and evaluate potential for risk
- Function as lead for a team of internal SMEs to align corporate Sustainability and ESG air emissions metrics with a goal measuring and monitoring TC Energy's performance
- Collaborate with internal (field operations, corporate, community relations, legal) and external stakeholders (e.g. regulatory agencies) to manage environmental risk
- Provide technical assistance in the evaluation and management of climate change as a Sustainability focus area and air emission issues in compliance with environmental regulations and laws
- Audit/review company operating procedures and processes; identify gaps, make recommendations and track implementation
- Analyze and assess the impact of emerging environmental issues and risks and develop mitigation strategies to assist meeting Sustainability and environmental goals
- Lead negotiations with regulatory agency staff, internal business partners and other stakeholders to aid in influencing project or corporate issues, regulatory initiatives or industry standards.
- Interact with regulatory agencies mitigating potential non-compliances and guiding regulatory policy initiatives
- Commission and oversee consultant work for air emissions and GHG verification, modeling, permit application, emerging issue, risk assessment and regulatory mitigation strategies, data inventory and audit functions
- Manage projects, schedules and budgets as necessary
- Manage the communication of complex, technical information to leadership as well as to internal and external stakeholders
- Develop and coordinate responses to public, regulatory and legislative questions on air emission and GHG issues

Minimum Qualifications

- A completed Bachelor's Degree, or preferably Master's Degree, in environmental sciences, geography, public policy or related fields from a recognized post-secondary institution is a requirement
- Minimum 6-8 years' experience in managing environmental planning and permitting for pipelines and other energy projects, including routing/siting, environmental planning, project management,
- permitting and environmental compliance
- Comprehensive knowledge of environmental laws/regulations practices pertaining to pipeline development and other energy project development

Preferred Qualifications

- Previous experience with the Federal permitting process for Pipelines in Canada
- Previous experience solving complex and unique regulatory, permitting and compliance issues on major projects
- Expertise in developing/implementing influence strategies with respect to environmental regulatory initiatives
- Expertise in assessing policy and regulatory issues to support development of corporate reporting and positions
- Commitment to client service and support
- Experience working with non-governmental organizations
- Strong written and oral communication skills, with an emphasis on tact and diplomacy; ability to communicate with technical and non-technical users
- Strong team orientation, demonstrating a high level of collaboration and cooperation within functional and cross-functional teams as well as independent initiative and motivation
- Proven systems thinker with strong analytical, process and problem resolution skills

About our business

TC Energy is a leading energy infrastructure company in North America. We have three complementary businesses of natural gas pipelines, liquids (oil) pipelines, and power generation. Our operations span three countries, seven Canadian provinces, and 34 U.S. states. Apply now! Apply to this posting by 12/05/2020 using reference code 76821. You must apply through our jobs system at jobs.tcenergy.com. Only applications submitted through our system will be acknowledged. Applications may be submitted using a mobile device or a desktop / laptop computer. TC Energy is an equal opportunity employer and participates in the E-Verify program supervised by the U.S. government. Thank you for choosing to grow your career with TC Energy. * Depending on qualifications, the successful candidate may be offered a position at a more appropriate level and/or ladder.* All positions require background screening. Some require criminal and/or credit checks to comply with regulations.* Consistent with our employment practices, we reserve the right to consider the cost of relocation when making internal hiring decisions.
