

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Link's Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

We all need energy. It warms our homes, cooks our food, gives us light, and gets us where we need to go. It also improves our quality of life in countless other ways. At TC Energy, our job is to deliver that energy to millions of people who depend on it across North America. And we take our job very seriously.

Guided by our values of safety, integrity, responsibility and collaboration, we develop and operate our facilities safely, reliably and with care for our impact on the environment. With our presence across the continent, our people play an active role in building strong communities.

Weâ€™re proud of how our hard work and commitment sets us apart and benefits society, every day. Weâ€™re looking for new team members who share our values and are ready to take on exciting challenges.

The opportunity

Are you passionate about safety, working in a collaborative environment, and taking initiative Are you highly motivated and a self-starter that enjoys working in a field environment As part of the Canada Gas Operations team youâ€™ll apply your critical thinking and technical skills to keep our natural gas compressor stations, measurement stations, and pipeline assets operating safely and reliably. Our Canadian Natural Gas Pipelines business includes over 43,000 kms of existing pipeline, 120 compressor stations and approximately 1,500 measurement stations across Canada. Our jobs are for innovators, thinkers, doers, team players and leaders. Theyâ€™re for people who dream big, seek purpose, value good teams and like to do big things.

This dynamic leadership position will provide a key role within the Eastern Region Leadership Team delivering on the demand for pipeline maintenance and operational support. This successful candidate will manage a team of high performing pipeline technical staff stretching from Western Ontario to Quebec City. This candidate will need to be both structured in approach and flexible as needed to meet the changing and challenging demands of a large team providing critical work across a wide geographic extent.

*Travel to other company locations for temporary assignments, meetings or training is required which would involve some overnight stays away from home.

What youâ€™ll do

- â€¢ Lead a team of pipeline technical staff whose key responsibilities include pipeline maintenance, damage prevention and project management support across a region stretching from Western Ontario to Quebec City

- â€¢ Provide leadership to continuously improve business performance in terms of health, safety and environment, cost, maintenance practices, and customer service

- â€¢ Provide input and assistance in the development of goals and objectives from Region to Area level

- â€¢ Lead the efforts to achieve these goals within the area

- â€¢ Effectively manage all resources (people, financial, material, and time) to ensure maximum efficiency in planning, forecasting, and allocation

- â€¢ Develop and foster an environment which actively enables and encourages employee innovation, continuous improvement, and commitment to operational excellence

- â€¢ Ensure compliance with all relevant federal, provincial, and local regulatory requirements and company policies and procedures pertaining to operations and maintenance

- â€¢ Manage Operations and Maintenance contracts; understand commercial agreements and asset management plans

- â€¢ Spend time in the field, engaging techs â€” providing direction and guidance to employees training and development via leadership discussions and the performance management process

- â€¢ Ensure that TC Energy has a positive and visible image in the communities within the area

- â€¢ Manage training requirements for the team to support technical and non-technical development

- â€¢ Manage and coordinate emergency response with a requirement to be on call to respond to emergency situations

Minimum Qualifications

- â€¢ Bachelor's Degree or Diploma in a technical based field of study (Engineering, Commerce, or equivalent)

- â€¢ Preferred 10 or more years of related work experience

- â€¢ Knowledge and familiarity with TC Energy's business vision, strategies, practices, processes and systems

Preferred Qualifications

- â€¢ Previous leadership experience

- â€¢ Previous pipeline maintenance experience would be considered an asset

- â€¢ Bilingual (English and French) would be considered an asset

About Canada Gas Operations

Weâ€™re up for any challenge. Are you Delivering energy across North America safely, responsibly and reliably takes a skilled hands-on team. Our Canadian Gas operations employees make sure we deliver natural gas day-in and day-out to millions of people who count on TC Energy for the

energy that powers our world. Our values of safety, integrity, responsibility and collaboration guide how we work with one another â€” and how we work with external stakeholders who are affected by our operations.
