

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Company TC Energy

Location Calgary, AB

Date Posted From: 2020-12-04 To: 2050-01-01

Job Type: Full-time Category: Resource Sector

Description

Enterprise Architect ManagerReference Code: 77181 Location: Canada (CA) - Calgary, AB

Job Category: Information Technology/Systems

Employment Type: Employee Full-time

Relocation Eligibility: This position is not eligible for our relocation program

Application Deadline: 03/19/2021 We all need energy. It warms our homes, cooks our food, gives us light, and gets us where we need to go. It also improves our quality of life in countless other ways. At TC Energy, our job is to deliver that energy to millions of people who depend on it across North America. And we take our job very seriously. Guided by our values of safety, integrity, responsibility and collaboration, we develop and operate our facilities safely, reliably and with care for our impact on the environment. With our presence across the continent, our people play an active role in building strong communities. We're proud of how our hard work and commitment sets us apart and benefits society, every day. We're looking for new team members who share our values and are ready to take on exciting challenges. The opportunityThe energy industry is primed for digital disruption, and we're excited about the opportunities ahead. We are leading the digital transformation journey by unlocking creativity and innovation in new ways, every day. If you're ready to challenge the status quo to deliver outstanding business results that propel us into the future, we want you to join our team! Our Information Services team is evolving to play a major role in leading innovation in our industry and to meet the needs of our growing business. We are expanding our Enterprise Architecture team to support and guide decentralized Portfolio and Product Architects and ensure our practices increase velocity to value and be part of dynamic storytelling via a business lens. Additionally, complimentary functions of supplier performance, licenses management, and key domain architecture strategies and services will be built.

Reporting to the Director, IS Performance & Enablement, the Manager, Enterprise Architecture is responsible for creating and leading a modernized Enterprise Architecture (EA) vision supporting both digitally transformative and risk-balanced initiatives across the Enterprise. What you'll do

- Focus on maximizing the value of our current Information Systems (IS) assets while enabling new innovative technologies to achieve valued business outcomes.

- Create a flexible adaptive team and impart value delivery in more agile ways.
- Establish an Enterprise Architecture (EA) vision and mandate, understanding where we are and charting the path to where we will be
- Support Product Delivery teams via (Product & Portfolio Architects)
- Support strategies for Enterprise Solutions both current and future
- Understand Enterprise systems, processes and data
- Lead the creation of an integration strategy
- Enabling business outcomes and sustaining stable operations
- Ability to enable and influence the work they drive
- Outstanding communication (written and oral) as well as proven competencies in transformative Enterprise Architecture
- Minimal travel (as needed); if in Calgary or Houston, more travel if located in other locations

Minimum Qualifications

- Bachelor's degree in Commerce, Computer Science or relevant degree
- 10 years of varied and progressive technical and business leadership responsibilities
- Demonstrated experience and results in digital transformation initiatives
- Demonstrated background in compelling influence and story-telling
- Experience in a modernized and business focused approach to EA
- Effective and influential communicator with a proven track record of agile, innovative and transformative business results.

About our business TC Energy is a leading energy infrastructure company in North America. We have three complementary businesses of natural gas pipelines, liquids (oil) pipelines, and power generation. Our operations span three countries, seven Canadian provinces, and 34 U.S. states.

About Information Services We're driven by the relentless delivery of bottom-line benefits, utilizing talented people, nimble process and the right technology. We're focused on outcome-based innovation and committed to be an idea factory with our business partners. We define success as the delivery of impactful, innovative solutions, not the deployment of technology.
