

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Canadian Pacific is a transcontinental railway in Canada and the United States with direct links to major ports on the west and east coasts. CP provides North American customers a competitive rail service with access to key markets in every corner of the globe. CP is growing with its customers, offering a suite of freight transportation services, logistics solutions and supply chain expertise. Visit cpr.ca to see the rail advantages of CP. For more on our purpose, culture, and strategy, visit cpr.ca/en/about-cp. *Please note this position may also be based out of Calgary depending on the successful candidate. PURPOSE OF THE POSITION:

- To provide technical support and assistance to Division ES Managers in prioritizing capital and maintenance work, performing field inspections and developing cost estimates;
- Execute work as assigned by Division Engineer and is responsible for project submissions, administration of contracts as well as maintenance of records;
- Professional oversight and assists in the management of Division engineering projects of varying magnitude involving track, structures and Signals & Communications.

POSITION ACCOUNTABILITIES:

- Generate project submissions for Division Capital and SMA projects involving Track, Structures and Signals & Communications;
- Plan and order material as assigned for projects;
- Provide technical support and manages execution for Division Managers for the cost effective management of projects such as surfacing, crossings, structures, drainage and weed mowing, including conducting field inspections and measurements;
- Assist in the preparation of cost estimates (including 3rd parties) and carry out field surveying required for the execution of the proposed work and updating of records;
- Administer contracts, including safety orientation, field inspection and supervision of contract work on various projects on the Division;
- Coordinate work activities with internal and external departments and customers to ensure safe, cost-effective execution of projects and programmed maintenance work;
- Manages the delivery and logistics of ballast for project or maintenance work;
- Manage Division projects within the budgeted allotment and assist Budget Specialist in monitoring Capital and Expense expenditures that fall under the jurisdiction of the Division;

- Monitor status of OCS cars on the Division and assists managers in ensuring timely unloading and release of OCS cars;
- Handle customer / public complaints, investigate problem areas, carry out site inspections and recommend remedial action to the engineering maintenance team.

POSITION REQUIREMENTS:

- Bachelor's degree – Engineering (Civil, Mechanical, or Industrial background) or the equivalent in combined education and demonstrated work experience;
- P Eng designation or previous experience working as Engineer-in-Training in province/state of residence;
- Minimum 3 years' experience in field based and/or engineering environment;
- Working knowledge of SAP, modern spreadsheet and scheduling software would be an asset;
- Capability to develop and manage a project plan/schedule;
- Ability to simultaneously manage priorities and projects to ensure delivery of position specific accountabilities;
- People leadership;
- Ability to influence functional and cross functional co-managers;
- Ability to work with people with integrity;
- Must have valid driver's license;
- Ability to respond to emergencies any time of day (24/7);
- Ability to travel for work.

WHAT CP HAS TO OFFER:

- Flexible and competitive benefits package
- Competitive company pension plan
- Employee Share Purchase Plan
- Performance Incentive Program
- Annual Fitness Subsidy

ADDITIONAL INFORMATION:As an employer with national presence, the possibility does exist that the location of your position may be changed based on organizational requirements. **Medical Requirements:**

Operating safely is a core foundation of CP. Our commitment is to protect our people, customers, communities in which we operate, the environment and our assets. We are also committed to a healthy and safe workplace. CP's Alcohol and Drug Policy and Procedures ("Policy and Procedures") support these commitments. All new hires for a safety sensitive position will be required to complete a pre-employment medical that includes a physical, vision, hearing, alcohol and drug audit assessment. Pre-employment qualification drug test(s) are also required. This includes candidates participating in the Trainee Program who will also be required to pass a drug test during the training process before receiving final qualification for the position. **Background Investigation:**The successful candidate will need to successfully complete the following clearances:

- Criminal history check
- Reference check

Management Conductor Program:Becoming a qualified conductor or locomotive engineer is the single best way for a management employee to learn the business at CP. You may be required to obtain a certification or to maintain your current certification/qualification as a conductor or locomotive engineer. CP is an equal opportunity employer committed to the principles of employment equity and inclusion. We welcome applications from all qualified individuals. All applicant information will be managed in accordance with the federal Personal Information Protection and Electronic Documents Act ("PIPEDA").
