

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Link's Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

Posting No. 005(80)

The City of Saskatoon is an Employment Equity employer

Duties:

- Repairs, overhauls, inspects, services, and maintains all types of Fire Department apparatus and related equipment including aerial trucks, boats, small engines, two stroke engines, pumps, nozzles and related appliances.
- Inspects units, including conducting operational tests where necessary and tests various systems and components to determine specific problems.
- Tests repaired equipment for proper performance and to ensure that work meets the manufacturer's specifications.
- Adjusts, repairs, and replaces parts and components of primarily heavy equipment using hand tools and other specialized equipment.
- Requisitions materials, supplies and equipment, as required.
- Diagnoses and repairs a wide variety of electrical, pneumatic and hydraulic systems and associated components.
- Overhauls various mechanical components, such as engines, transmissions, differentials, final drives, brakes, steering, suspensions and auxiliary equipment.
- Performs metal fabrication and welding duties such as building hose racks, cabinets, trailer repair, etc.
- Supports and promotes the health and safety of employees and the general public in accordance with the Saskatchewan Employment Act, Saskatchewan Health Regulations and Standards, Occupational Health & Safety Regulations and the City of Saskatoon's administrative Occupational Health & Safety policies and departmental procedures. Maintains and monitors programs which affect public health and safety.
- Performs other related duties as assigned.

Qualifications:

- Grade 12 education.
- Possession of a Provincial or Interprovincial Journeyperson Heavy Duty Mechanic Certificate or Journeyperson Heavy Equipment Mechanic Certificate.
- Five years' current related Journeyperson experience with large equipment and heavy-duty truck repairs.
- Possession of a valid Saskatchewan Class 3A Driver's Licence.
- Current driver's abstract from SGI demonstrating a safe driving record.
- Successful completion of WHIMIS training.
- Ability to obtain a recognized aerial Fire Apparatus maintenance and inspection certificate.
- Ability to successfully complete required continuing education courses.
- Knowledge of the occupational hazards and safety precautions of the trade
- Knowledge of electronic engines, electronic transmissions, diesel systems, air brake systems and associated components.
- Knowledge of standard methods, materials, tools and equipment involved in fire apparatus maintenance.
- Knowledge of the safe operation and maintenance of shop equipment and tools.
- Demonstrated ability to exercise good judgement in the care and handling of motor vehicles.
- Demonstrated skills in basic welding.
- Ability to recognize and report on potential hazards, and take measures to remove them.
- Ability to comprehend technical vehicle service manuals and repair bulletins.
- Ability to complete and process all forms and reports.
- Ability to deal courteously and tactfully with the Public and fellow employees.
- Ability to work with minimal supervision, individually or as a team member.
- Ability to plan and organize maintenance work with minimal supervision.
- Ability to adapt to changing technology and have skill in the operation of a computer.
