

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

Xtream IT People, DbA XIT Solutions Inc represents a group of Tax Technology experts that are globally connected. We engage, evolve & automate the technology that makes IT eXciTIng. So no matter where you are on your digital career roadmap we can help you grow. We are located at 4 Robert Speck Parkway, 15th floor Mississauga ON L4Z 1S1 and are looking for a Technical Support Analyst – Systems.

As a member of our Software Engineering Group you are expected to hit the ground running on day one. You will dive head-first into creating innovative solutions that advance businesses and careers. You™ll join an inspiring and curious team of technologists dedicated to improving the design, analytics, development, coding, testing and application programming that goes into stakeholders up to speed on the progress of what™s being developed. You are expected to come in with an understanding of the importance of end-to-end software development such as Agile frameworks – is key. And best of all you™ll be working with and sharing ideas, information and innovation with our global team of technologists.

Job Type: Permanent full time position.

Requirement:

A 4 year Bachelors Degree in computer science or Information Technology;

3+ years of experience with web technologies such as HTML5/CSS3/JavaScript, JQuery and AJAX;

Thorough knowledge of JS frameworks and knowledge of OOPs & MVC;

Strong skills two or more frameworks like Angular 1.x/2, React JS, Spread JS;

Knowledge of XML, JSON, REST-API & Web services is essential.

Ability to work closely with clients and stake holders;

Ability to coordinate with onshore/offshore teams;

Knowledge of Java technology;

Any prior experience with Tax Technology companies would be a huge plus

Essential Skills

As a Technical Support Analyst for software systems you are expected to be an individual

contributor as well as work in a team environment;

â€¢Communicate with clients/users to identify and document requirements;

â€¢Provide software support by testing software applications to reproduce the reported bugs and diagnose them;

â€¢Resolve open tasks/tickets on Jira board to deliver on assigned user stories;

â€¢Design, develop and implement technology solutions specifically for our Tax Technology Clients;

â€¢Collaborate with client and offshore teams to make sure the quality of the code is maintained as per the industry standards;

â€¢Manage the offshore team and provide the required technical support as directed by the management
