

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

About the Opportunity

Our fast-paced Surrey office is looking to hire a highly capable CAD Technologist/Technician to join our Transportation Team. This team is an integral part of our practice and focuses on developing transportation solutions that improve the movement of people and goods between and within communities across BC.

Do you have a passion for creating engineering designs and drawings Are you looking to make a move to an organization that supports growth and development, flexibility, and mentorship opportunities Let's connect!

As an Intermediate CAD Technologist, you are responsible for working alongside a team of engineers and planners and leading junior drafting specialists to translate high-level conceptual designs from preliminary to detailed design. Some of your daily responsibilities will be:

- Use AutoCAD and Civil3D software to create technical drawings
- Encourage and guide junior members on adherence to client standards
- Create base file packages and organize information from multiple sources
- Be part of a dynamic team with leadership and mentoring opportunities
- Support team with drawing quality control to verify accuracy of production work
- Perform a variety of analytical assignments with independent judgment
- Preparation of quantity take-offs and construction cost estimates

Due to COVID-19, the opportunity to work remotely and from home does exist, although, from time to time, we may need assistance with client work or face-to-face meetings. Therefore, the individual would need to reside in the Lower Mainland.

Experience

About You

Our preferred candidate is a graduate of a Civil/CADD Technician or Civil Engineering Technology program with 3-6 years of working experience and is eligible to be registered with ASTTBC. In addition, the following attributes would be considered beneficial for this role:

- Experience with BC Ministry of Transportation drawing standards

- Ability to create clean and easy-to-use drawing templates
- Strong organizational skills, and a passion for keeping projects tidy
- Confident in working in a self-directed work environment, with the ability to balance multiple projects and deadlines
- Interest in leading/mentoring and supporting junior staff
- A keen eye for detail and takes great pride in their work
- Committed to ongoing personal and professional development
- Certification or eligible for certification with ASTTBC

How to Apply
