

# Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

<b>Company</b>	Simon Fraser University	
<b>Location</b>	Burnaby, British Columbia	
<b>Date Posted</b>	From: 2019-11-14	To: 2020-05-12
<b>Job</b>	Type: Full-time	Category: Education
<b>Job Start Date</b>	January 2021	
<b>Languages</b>	English	

### Description

The Department of Earth Sciences at Simon Fraser University invites applications for an Endowed Chair in Resource Geoscience and Geotechnics at the Associate Professor level, commencing as early as January 2021. A PhD is required as is previous professional (e.g. academic or industry) experience.

The Endowed Chair will provide academic leadership in support of British Columbia's resource industry, through training and research in geological engineering and engineering geology and geotechnics. The Department has state-of-the-art remote sensing and 3D visualization facilities, and geomechanical software upon which the candidate will ideally capitalize.

Candidates with expertise in soil and rock mechanics, and who currently lead field- and computationally-based research examining geohazards related to the resource sector and natural hazards are encouraged to apply. The successful candidate will develop an internationally recognized, externally funded research program, and supervise both Masters- and Doctoral-level graduate students. Teaching responsibilities will include undergraduate and graduate level courses that support the environmental geoscience curriculum, specifically Introduction to Soil and Rock Engineering and Resource Geotechnics.

The candidate is expected to become a registered Professional Engineer or Geoscientist in British Columbia.

For additional information about this position, see <http://www.sfu.ca/earth-sciences/frbc-chair.html>.

All qualified candidates are encouraged to apply; however, Canadian citizens and permanent residents will be given priority. SFU is an equity employer and encourages applications from all qualified individuals including women, persons with disabilities, visible minorities, Indigenous Peoples, people of all sexual orientations and gender identities, and others who may contribute to the further diversification of the university. Under the authority of the University Act personal information that is required by the University for academic appointment competitions will be collected. For further details see: [http://www.sfu.ca/vpacademic/Faculty\\_Openings/Collection\\_Notice.html](http://www.sfu.ca/vpacademic/Faculty_Openings/Collection_Notice.html). The University acknowledges the potential impact of career interruptions on a candidate's record of research productivity, and encourages candidates to explain such interruptions.

### How to Apply

Applicants are requested to submit a curriculum vitae, a statement of research and teaching interests, and the names, titles, affiliations and contact information (including phone numbers and email addresses) of three referees. Electronic applications are mandatory. Review of applications will begin January 20, 2020. Applications should be directed to:

Dr. Brent Ward

Chair, Department of Earth Sciences

Simon Fraser University

Burnaby, BC.
