

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Company TC Energy

Location Grande Prairie, AB

Date Posted From: 2021-02-25 To: 2050-01-01

Job Type: Full-time Category: Resource Sector

Description

EIC Controls TechnicianReference Code: 80195 Location: Canada (CA) - Grande Prairie, AB

Job Category: Trades/Technical Employment Type: Employee Full-time

Relocation Eligibility: This position is eligible for our domestic relocation program

Application Deadline: 03/10/2021 We all need energy. It warms our homes, cooks our food, gives us light, and gets us where we need to go. It also improves our quality of life in countless other ways. At TC Energy, our job is to deliver that energy to millions of people who depend on it across North America. And we take our job very seriously.

Guided by our values of safety, integrity, responsibility and collaboration, we develop and operate our facilities safely, reliably and with care for our impact on the environment. With our presence across the continent, our people play an active role in building strong communities.

We're proud of how our hard work and commitment sets us apart and benefits society, every day. We're looking for new team members who share our values and are ready to take on exciting challenges.

The opportunity

The EIC Controls Technician reports to the Alberta Manager, North Cogeneration and Storage and is the facility subject matter expert in operating, maintaining and repairing of various equipment on site, including but not limited to gas turbines, steam turbines, generators, boilers, fuel gas compressors, and PLC & DCS control systems. In this role you will also assist with the development and implementation of asset optimization and performance strategies. We're looking for someone with enhanced communication and business skills coupled with the ability to collaborate with various internal and external stakeholders.

As the EIC Controls Technician, you will need to be available after normal work hours and weekends as travel will be required to other power generation and gas storage facilities within TC Energy to provide support. What you'II do

• Perform routine operating and maintenance duties at TC Energy power and gas storage facilities

• Troubleshoot, operate and maintain various types of equipment

• Coordinate and/or perform scheduled preventive maintenance tasks and inspections on plant equipment

• Perform various administrative and support duties such as shipping and receiving parts and supplies

• Maintain operational and maintenance records

• Utilize Computerized Maintenance Management systems

• Oversee and coordinate activities utilizing contractors

• Understand and apply emergency management planning procedures

• Ensure work tasks and duties comply with Health, Safety and Environment (HS&E) policies and procedures

• Respond to customer and business partner needs in a timely manner

• Ensure facilities are operated and maintained in compliance with TC Energy's HS&E Standards

• Respond to 24-hour call-out or emergency situations

Minimum Qualifications

• High School Diploma and Red Seal Journeyman Electrician and/or Electrical Engineering Technologist diploma

• Minimum 4 years' experience in a power plant, cogeneration plant or continuous manufacturing experience or similar experience, additional years of experience are considered an asset

• An alternate combination of experience and experience may be considered Preferred Qualifications

• Diploma or certificate from a technical/trade school in the field of electrical and / or instrumentation

• Demonstrated short- or long-term maintenance planning, coordination and scheduling of routine and emergency outages

• Ability to identify, analyze and implement predictive maintenance technologies and procedures

• Knowledge of instrumentation and controls; experience with troubleshooting and maintaining PLC and DCS control systems.

• Demonstrated strong leadership, interpersonal skills and communication and issue resolution skills

• Ability to create and maintain a positive and collaborative team environment

• Strong organizational skills and ability to set priorities and goals independently

• Good computer skills and proficient in Microsoft Office products (Word, Excel, Power Point, Outlook) as well as SAP

This position requires candidates to:

• Have and maintain a valid driver's license and provide a driver's abstract (record) for review

• Successfully complete a pre-employment medical screening, including drug and alcohol testing

• Up to 50 percent travel to other facilities within Power & Storage for planned / unplanned work

• Normal work hours are 9/80 rotation
