

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

PURPOSE OF THE POSITION: The Senior Project Manager is responsible for managing and delivering the overall project and its deliverables by acting as the customer's single point of contact for the project. This includes responsibility for planning and executing project activities and managing resources to ensure the established scope, budget, time and quality goals are met. **POSITION ACCOUNTABILITIES:**

- Project Initiation
 - Work with technical and business leaders to define project investment opportunities, including scope, schedule, budget, and benefits
 - Identify and negotiate project resource requirements with delivery organizations (internal & external), set delivery expectations, and evaluate delivery performance;
- Project Delivery
 - Direct accountability for planning and executing one or more Agile or Waterfall projects as solution scope requires to project performance criteria (on time, within scope, on budget, and meeting quality

standards) as defined in the project statement(s);

- Develop project estimate basis using Agile software development estimation techniques
- Work with Product and resource owners to identify internal and external stakeholders, and then lead stakeholders management activities throughout the project life cycle;
- Own the development and review of project requirements with Product Owners, Solution Architects, and Technical Leads to ensure project will deliver to the planned benefits
- Facilitate interactions between Technical Leads, Project Delivery Staff, and QA Leads to ensure that project delivery and testing completion are aligned
- Facilitate cross-departmental project delivery activities, and gain commitment for delivery while managing competing demands, to ensure that project delivery dates are not compromised
- Plan project implementations, facilitate implementation dry runs, and lead Go live activities to ensure production implementations do not adversely impact the production environment
- Escalate material issues and risks to leadership in a timely fashion
- Ensure that Organizational Change Management activities are completed to drive product adoption
- Ensure that Transition to Support is planned for, completed, and approved so that the support organization can support all new or modified systems

- Project Controls

- Follow IS PMO processes regarding deliverables, stage gates, and controls in accordance with SOX and management controls compliance;
- Create and maintain project financials across project cost budget managed in SAP and Excel; provide accurate and timely project financial submissions;
- Develop, monitor and control all aspects of project delivery in accordance with CP IS PMO and project management best practices
- Develop, and support the development, of presentations to senior management regarding project scope, schedule, budget, and current status updates.

- Team Leadership

- Provide project leadership: set clear goals, engage team members, resolve conflict and recognize team member contributions appropriately;
- Conduct regular lessons learned sessions to ensure continuous improvement of project teams.

POSITION REQUIREMENTS:

- 10+ years of experience leading large, multi-stakeholder business focused application development IS projects;
- Rapidly learn new business processes and operating practices, and apply this knowledge to improve project planning and delivery;
- Self-starter, the successful candidate demonstrates strong accountability and pride of ownership to deliver quality solutions;
- Deliver Custom Development, and/or Application Integration projects using primary Iterative, Agile or Waterfall Project methodologies;
- Lead SOW development, participate in contract negotiations, and manage Vendors and materials delivery;
- Hands-on experience using Jira and Microsoft Project to plan and deliver projects

- Ability to communicate and influence decision making at executive and working levels, with demonstrated prioritization and conflict resolution experience;
- Advanced project management practical expertise across knowledge areas: scope, time, cost, quality, human resource, communication, risk and procurement and integration management;
- University degree or equivalent in Commerce/Business Administration, Engineering, or Computer Science;
- Project Management Professional certificate (PMP) or equivalent experience;
- PMI-ACP or Certified Scrum Master would be considered an asset.

WHAT CP HAS TO OFFER:

- Flexible and competitive benefits package
- Employer-Funded Retirement Plan
- Employee Share Purchase Plan
- Performance Incentive Program
- Annual Fitness Subsidy
- Part-time Studies Program

ADDITIONAL INFORMATION:As an employer with national presence, the possibility does exist that the location of your position may be changed based on organizational requirements. **Background Investigation:**The successful candidate will need to successfully complete the following clearances:

- Criminal history check
- Reference check

Management Conductor Program:Becoming a qualified conductor or locomotive engineer is the single best way for a management employee to learn the business at CP. You may be required to obtain a certification or to maintain your current certification/qualification as a conductor or locomotive engineer. CP is an equal opportunity employer committed to the principles of employment equity and inclusion. We welcome applications from all qualified individuals. All applicant information will be managed in accordance with the federal Personal Information Protection and Electronic Documents Act ("PIPEDA").
