

# Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Link's Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

<b>Company</b>	TC Energy
<b>Location</b>	Bolton, ON
<b>Date Posted</b>	From: 2021-04-14 To: 2050-01-01
<b>Job</b>	Type: Full-time Category: Resource Sector

### Description

Maintenance Program Manager (Eastern Region) Reference Code: 83061 Location: Canada (CA) - Bolton, ON

Job Category: Management; Operations

Employment Type: Employee Full-time

Relocation Eligibility: This position is eligible for our domestic relocation program

Application Deadline: 05/11/2021 We all need energy. It warms our homes, cooks our food, gives us light, and gets us where we need to go. It also improves our quality of life in countless other ways. At TC Energy, our job is to deliver that energy to millions of people who depend on it across North America. And we take our job very seriously. Guided by our values of safety, integrity, responsibility and collaboration, we develop and operate our facilities safely, reliably and with care for our impact on the environment. With our presence across the continent, our people play an active role in building strong communities. We're proud of how our hard work and commitment sets us apart and benefits society, every day. We're looking for new team members who share our values and are ready to take on exciting challenges. The opportunity Reporting to the Manager, Integrated Planning and embedded in the Canada Gas Operations' Eastern Region, this position is part of a team responsible for the development, planning, optimizing and management of multi-year work management programs related to TC Energy's asset operations, maintenance, and capital programs to achieve asset availability that meets commercial operations requirements. The Maintenance Program Manager will work collaboratively with Operations, Facility Reliability and Integrity Engineering, Commercial Operations, Supply Chain and Capital Project Management departments to identify intermediate to long-term activities and resource requirements. You will then initiate the planning / forecasting process leading to the achievement of asset management objectives and effective resource planning. Please Note: This position may be based out our regional office in Bolton, ON or at Station 148 outside of Montreal, QC.

What you'll do

- Develop, manage and report on intermediate to multi-year asset work programs, including capital programs and outage plans, to optimize project and maintenance work execution
- Review, analyze and report on asset work programs, maintenance indicators and resource demand forecasts
- Support the development and management of budgets, business plans, KPIs and monthly reporting for Facility Reliability and Integrity work
- Effectively transition / communicate work management demand plans with Management and Field Work Planners
- Collaborate with other TC Energy departments when necessary to enable the most effective and efficient work programs for the facilities, areas and region
- Work across organizational boundaries with all departments to resolve work planning conflicts and acquire and/or distribute resources across facilities to support the completion of TC Energy's highest priority work
- Review preventative maintenance programs to improve delivery and reduce effort and/or operating cost across organizational boundaries
- Report and present outage, maintenance and resource forecasts and recommendations to various stakeholders on a monthly basis

### Minimum Qualifications

- 8 years related experience with a Technical / College Diploma in a related field
- Proven experience with work planning or project coordination
- Demonstrated experience with Computerized Maintenance Management Systems
- Understanding of risk management and project management processes
- Strong conflict resolution, problem-solving and facilitation skills

### Preferred Qualifications

- Bilingual in English and French, both written and verbal
  - University Degree in a related field
  - Ability to apply decision making tools and techniques quickly and accurately
  - Ability to make timely, defensible decisions that consider both the short and long-term impacts
  - Demonstrated ability to provide leadership across multiple groups without direct control
  - Understanding of gas pipeline operations and field maintenance practices including field operations experience
  - Prioritization skills and the ability to manage numerous and complex processes simultaneously
  - Developed project management and analytical skills supported by use of software applications, including, SAP, MS Project, Access, Excel, and Word
