

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Canadian Pacific is a transcontinental railway in Canada and the United States with direct links to major ports on the west and east coasts. CP provides North American customers a competitive rail service with access to key markets in every corner of the globe. CP is growing with its customers, offering a suite of freight transportation services, logistics solutions and supply chain expertise. Visit cpr.ca to see the rail advantages of CP. For more on our purpose, culture, and strategy, visit cpr.ca/en/about-cp. **PURPOSE OF THE POSITION:** CP is looking for a Co-op Engineer to fill a temporary position within the Track Evaluation Car department. We will expose Co-op Engineers to various engineering field experiences to learn various aspects of the railway business. You will be part of an engineering team that operates and monitors the track recording devices and other instruments during assigned periods, while the Track Evaluation cars are in operation across the country, to ensure established quality control procedures are followed. Our Co-op positions are framed to provide you with a business relevant project that will allow you to independently manage your own area of responsibility, while receiving support from an assigned leader and mentor. Projects are scoped in alignment with your term length, are based in the field (not at head office), and typically focus on process optimization or other continuous improvement initiatives. **POSITION ACCOUNTABILITIES:** Primary emphasis on quality assurance and controls; Ensure through monitoring and verification that accepted organization standards are implemented; Use computerized systems and interfaces; data transport preparation and archiving; Extensive use of information technologies in all aspects of the work. (Computer programming not required); Perform preventive maintenance and running repairs of all Track Evaluation car electronic, mechanical, hydraulic and optical equipment. Inspect and maintain all mechanical components of the Track Evaluation cars during testing operations; Elaboration and implementation of preventive maintenance programs for all aspects to the mechanical systems; Recommend procedures for various mechanical assemblies for current and developmental systems; Perform maintenance and data processing functions on board the cars.

POSITION REQUIREMENTS: Engineering Discipline in Civil Engineering, Electrical, Mechanical and Industrial backgrounds will be considered; Minimum of 1-3 years of experience (co-op experience considered); Knowledge of track maintenance practices would be an asset; Strong problem solving skills and decision making skills; Strong data analysis experience required; Must be proficient with MS Office, experience with SAP would be an asset; Excellent verbal and communication skills; Strong leadership and technical skills; Must have valid driver's license; Extensive traveling (100%) is required for this position. Full expenses are covered including flights, meals, hotels and rental cars.

Background Investigation: The successful candidate will need to successfully complete the following clearances:

- Criminal history check

Canadian Pacific is an equal opportunity employer working to close the gender gap in STEM related fields.
