

# Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

#### Description

Risk Analyst, Market Risk AnalyticsReference Code: 84769 Location: Canada (CA) - Calgary, AB

Job Category: Accounting/Finance Employment Type: Employee Full-time

Relocation Eligibility: This position is not eligible for our relocation program

Application Deadline: 05/17/2021 We all need energy. It warms our homes, cooks our food, gives us light, and gets us where we need to go. It also improves our quality of life in countless other ways. At TC Energy, our job is to deliver that energy to millions of people who depend on it across North America. And we take our job very seriously. Guided by our values of safety, integrity, responsibility and collaboration, we develop and operate our facilities safely, reliably and with care for our impact on the environment. With our presence across the continent, our people play an active role in building strong communities. We're proud of how our hard work and commitment sets us apart and benefits society, every day. We're looking for new team members who share our values and are ready to take on exciting challenges.

The opportunity

Our Risk Analytics Team is evolving the analytics capabilities within our Market Risk group. In this role, you will provide quantitative risk analysis in support of TC Energy's power, gas storage, oil, treasury, and other marketing businesses. You will be responsible for the development, enhancement and maintenance of various market and credit risk models. The successful candidate must have strong analytical skills in the areas of statistics, theoretical finance, risk analysis, and computer programming. This role will appeal to individuals who are comfortable with detailed analytic work, and have strong quantitative, modeling and communication skills. In addition, you will be involved in day-to-day market risk reporting activities. This position reports into the Manager, Market Risk Analytics, in the Risk Management group of Corporate Finance.

#### What you' II do

• Develop, maintain, and support quantitative risk models

• Develop tools to report Front-Office exposures, positions, and P&L

• Validate independently Front-Office reports (Positions, MTM, Exposure)

• Analyze and review Front-Office reports, and monitor transaction activity for any violation of polices or limits; investigate any reporting anomalies and work collaboratively with Front-Office to resolve

• Work with ETRM and Data Warehouse systems

• Develop models to assess market and counterparty related exposures for new business opportunities/proposals

• Work collaboratively with the Front-Office business units to analyze and review new product and limit requests

• Assist in managing and validating forward price curves, including forward curve modeling

• Provide analytic and quantitative support to Risk Management, and ad hoc risk analysis for other business areas in the organization

• Work with internal and external audit

#### Minimum Qualifications

• Bachelor's degree in Finance, Economics, Mathematics, or related quantitative field

• Well-rounded knowledge in finance, economics, mathematics, and computing

• 6+ years' related Market Risk work experience in a middle or front office role, specifically with direct exposure to North American power, natural gas, and/or crude oil markets

• Demonstrated mathematical and computer skills for risk modeling is essential

• Programming and database skills are a must; preferred programming experience includes Matlab, VBA, SQL, and/or Oracle Preferred Qualifications

• Master's degree is preferred but not required

• Thorough understanding of the fundamental principles of economic, financial, and commodity and counterparty risk analysis, and various market risk concepts including VaR, stress testing, scenario analysis, P&L, MTM, and exposure

• General understanding of the Treasury function, including foreign exchange and interest rate products

• Strong quantitative and analytics background, with proven problem solving and model building skills

• Hands on experience with an ETRM system is desired, preferably Endur and/or EKA

• Ability to effectively summarize and clearly communicate results, both in writing and verbally, to a wide range of audiences

• Ability to work independently and as an effective team player on cross-functional teams

• Ability to develop and maintain collaborative working relationships
