

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Link's Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

Treasury Board Secretariat, Enterprise Applications Branch, is seeking two experienced Senior Systems Administrators with a proven track record in DevOps and cloud computing to join a high-performance team.

As a member of our dynamic and fast-paced team, you will support various Enterprise and Corporate systems working with SaaS integration and configuration capability. You will have the opportunity to work with leading technologies on an interesting and diverse range of projects related to the modernization of Ontario's business applications, such as Digital Recruitment Modernization and document collaboration development processes.

LEADING TECHNOLOGY

Work with world-class technologies: Docker, Ansible, Elasticsearch, Microsoft Azure, Cosmos DB, Vue JS, Tech stacks: HTML5, CSS3, Foundation/SaSS, AngularJS, Node.js, PHP, Drupal, and AWS Cloud.

WHY CHOOSE THE ONTARIO GOVERNMENT

- Canada's Top 100 Employers
- Work that makes an impact on society
- Learning and development opportunities
- Open and inclusive work environment
- Flexible work arrangements
- Health and dental benefits
- Pension plan
- Generous vacation

Note: These positions are located at 33 King Street West, Oshawa and/or 222 Jarvis Street, Toronto; however, alternate work arrangements, including flexible hours, hybrid remote work, and a compressed work week, may be available.

What can I expect to do in this role

As an experienced Senior Systems Administrator with DevOps expertise, you will:

- design, build, automate, deploy to, and support cloud environments, so our technical team can continue to build and deploy enterprise solutions to support public servants providing services for Ontarians in the most effective way possible.
- lead system configuration workshops and gap analysis to finalize system functional requirements, and configure and deploy new instance in a cloud environment.

Your Impact:

- Your experience and passion for designing, building and maintaining a stable, secure and scalable cloud environment will make it possible for the development and quality assurance team to deliver high-quality digital products.
- Your expertise in continuous delivery will help us further automate our testing and deployment pipelines to deliver solutions incrementally and quickly.
- Your ability to monitor and assess the health and security of applications in a cloud environment will ensure our solutions are available anytime, anywhere.
- You will create, test and implement operational safeguards that maintain the integrity of data and protect against unauthorized access.
- As our applications continue to grow within the Ontario Public Service (OPS) and integrate with other platforms, we will rely on your DevOps expertise to guide and mentor other team members.
- Working with a high-performance team, you will be constantly learning new technologies and techniques through research and experimentation, and from your exceptional colleagues.

Location(s): Oshawa, Toronto

How do I qualify

Technical Knowledge and Experience

- You have proven experience in providing production support for one or many of the leading cloud platforms like AWS, Azure, or Google Cloud
- You are familiar with open source tools, front-end markup and scripting languages, and web analytics software
- You have fluency in programming languages like Python, Bash, PHP, Java, JavaScript, Node and others
- You have experience in build tools like Git, Ansible, Chef, Puppet, and others for continuous integration
- You are familiar with container-based virtualization technology like Docker
- You have integration experience using and building APIs
- You have experience applying industry web, architectural and security standards and best practices to your work that can be adopted by others
- You have worked with relational and non-relational databases like MySQL, CosmosDB, PostgreSQL, Redis and others
- You have experience in securing environments using offensive and defensive approaches

Leadership and Communication Skills

- You are comfortable leading discussions and selling your ideas to technical and non-technical colleagues as well as senior management
- You are a strong communicator who collaborates on your work within a multidisciplinary team
- You have strong leadership skills to support and guide team members

OPS Commitment to Diversity, Inclusion, Accessibility, and Anti-Racism

We are committed to build a workforce that reflects the communities we serve and to promote a diverse, anti-racist, inclusive, accessible, merit-based, respectful and equitable workplace.

We invite all interested individuals to apply and encourage applications from people with disabilities, Indigenous, Black, and racialized individuals, as well as people from a diversity of ethnic and cultural origins, sexual orientations, gender identities and expressions.

Visit the OPS Anti-Racism Policy < <https://www.ontario.ca/page/ontario-public-service-anti-racism-policy> > and the OPS Diversity and Inclusion Blueprint < <https://www.ontario.ca/page/ops-inclusion-diversity-blueprint> > pages to learn more about the OPS commitment to advance racial equity, accessibility, diversity, and inclusion in the public service.

We offer employment accommodation across the recruitment process and all aspects of employment consistent with the requirements of Ontario's Human Rights Code < <http://www.ohrc.on.ca/en/ontario-human-rights-code> >. Refer to the application instructions below if you require a disability-related accommodation.

Salary Range: \$1,704.17 - \$2,128.95 Per Week

Additional information:

- 2 Permanent, 222 Jarvis St, Toronto, Toronto Region or 33 King St W, Oshawa, Central Region

Note:

- The information that you provide for the purpose of this competition and the results from this competition may be used to fill other positions. These positions may be of various tenures, including short-term assignments. Your information and the results from this competition will be retained for the purpose of filling vacancies in accordance with the applicable collective agreement or policy provisions.
