

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

Field Work Planner - Cypress AreaReference Code: 88305 Location: Canada (CA) - Regina, SK

Job Category: Operations

Employment Type: Employee Full-time

Relocation Eligibility: This position is eligible for our domestic relocation program

Application Deadline: 07/29/2021 We all need energy. It warms our homes, cooks our food, gives us light, and gets us where we need to go. It also improves our quality of life in countless other ways. At TC Energy, our job is to deliver that energy to millions of people who depend on it across North America. And we take our job very seriously.

Guided by our values of safety, integrity, responsibility and collaboration, we develop and operate our facilities safely, reliably and with care for our impact on the environment. With our presence across the continent, our people play an active role in building strong communities.

We're proud of how our hard work and commitment sets us apart and benefits society, every day. We're looking for new team members who share our values and are ready to take on exciting challenges.

The opportunity

The Cypress Area team is responsible for operations and maintenance activities in Saskatchewan and Manitoba. We are seeking a Field Work Planner with excellent verbal and written communication skills to work closely with field teams and Management, and coordinate work with other appropriate technical resources.

The successful candidate will complete the planning and scheduling for the Cypress Area. The candidate will be using multiple tools for tracking, planning and scheduling short and long-term work plans. You will be working on a high performing planning team that will allow you to expand your skills and provide knowledge and feedback for other initiatives.

What you'll do

- Develop (1-3 months) area work plans incorporating pipeline project work, maintenance programs, regulatory compliance activities, and corrective maintenance work
- Develop work execution plans and detailed schedules to provide direction and coordination of project activities associated with pipeline work within the area
- Ensure work orders and other required documentation are created and properly scoped and reported for all work in the area
- Manage the work plans to ensure that corrective work and work backlog items are incorporated and opportunities to bundle and combine work are identified and all work is resourced as required
- Utilize regional contracting strategies, including supply of parts and vendor services, to ensure required resources are available to complete the work as planned
- Act as the Area contact for all other departments for short term planning issues, resource availability, and progress reports for all major area work
- Provide regular assessments and reports of work plan completion and variance
- Incorporate revisions and ensure accuracy of entity information and maintenance programs that are modified at a local or Area level
- Coordinate technician training requirements for the field work

Minimum Qualifications

- Technical school graduation or Associate degree
 - Six (6) or more years of related experience
 - Two (2) years or more experienced in project management and/or work planning and scheduling
 - Working knowledge and expertise with computerized maintenance management systems for work planning and information retrieval, specifically SAP and Excel
 - Demonstrated ability to assess continuous changing resource demands and make suitable adjustments to existing plans with limited management guidance
 - Superior organizational skills
 - Effective analytical skills
 - Must possess human relations skills to effectively operate in a team-oriented environment with a willingness to support team objectives
 - Excellent verbal and written communication skills to work closely with field teams and Management, and coordinate work with other appropriate technical resources
 - Ability to effectively interact with all levels of the organization
 - Must be able to handle rapidly shifting priorities and multiple projects concurrently, requiring resolution of complex problems in stressful situations
 - Ability and initiative to work independently, display creativity, and exercise sound judgment
- Preferred Qualifications
- Ability to achieve certification in project management

- Strong understanding of pipeline facility operations

Additional Role Requirements

- Have and maintain a valid driver's license and safe driving record
- Be subject to callouts with extended workdays/weeks as required to complete assignments or emergency support
- Travel frequently within the assigned area of responsibility
- Travel occasionally to other company locations which may include overnight trips
- Possibility of spending long periods at a computer work station, drive long distances and be exposed to field operations and construction environments
- *Driving a motor vehicle is an essential job function of this position. Following a conditional offer of employment, the Company will check the motor vehicle records of any job applicant when driving is an essential job function

About our business
