

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

Regulatory Economist - Strategy and Regulatory Reference Code: 88336 Location: Canada (CA) - Calgary, AB

Job Category: Compliance/Audit/Regulatory

Employment Type: Employee Full-time

Relocation Eligibility: This position is eligible for our domestic relocation program

Application Deadline: 07/30/2021 We all need energy. It warms our homes, cooks our food, gives us light, and gets us where we need to go. It also improves our quality of life in countless other ways. At TC Energy, our job is to deliver that energy to millions of people who depend on it across North America. And we take our job very seriously.

Guided by our values of safety, integrity, responsibility and collaboration, we develop and operate our facilities safely, reliably and with care for our impact on the environment. With our presence across the continent, our people play an active role in building strong communities.

We're proud of how our hard work and commitment sets us apart and benefits society, every day. We're looking for new team members who share our values and are ready to take on exciting challenges.

The opportunity

Reporting to the Strategy and Regulatory Manager, this position will conduct projects with broad scope in the Liquids asset regulatory area, including preparing tolls and tariffs applications and other filings on the Company's behalf with the Canada Energy Regulator (CER), Federal Energy Regulatory Commission (FERC) and other regulatory bodies. This position works in a team environment with other regulatory professionals and legal staff, as well as professionals in the pipeline projects, commercial, accounting and operations areas. This is a regulatory specialist position.

What you'll do

- Assisting in the preparation and drafting of regulatory filings by contributing regulatory economic policy content to responses to information requests from regulatory agencies and intervenors, written evidence and argument
- Candidates are able to act with initiative to identify and define issues, as well as recommend appropriate courses of action to leadership for strategic decision making
- Attending regulatory proceedings or public hearings with the various regulatory bodies
- May liaise with government and regulatory officials in representing the Company with pipeline industry members and industry associations
- Stays abreast of current and proposed laws, regulations and industry developments affecting Company projects and initiatives
- Provide regulatory research analysis support with respect to TC Energy filings, interventions and strategy/policy development
- Provide economic analysis of regulatory decisions

Minimum Qualifications

- University degree in Economics, Finance or related field
- 6 years' experience in the pipeline, oil and natural gas or electricity industries
- Previous experience working in a regulatory environment involving complex regulatory filings
- Travel is required infrequently, depending on the site chosen for a given regulatory proceeding

Preferred Qualifications

- A Master's degree in Economics or Public Policy, focused in regulatory economics, industrial organization and/or

competition/antitrust policy

- Strong written and verbal communication; technical writing experience is an asset
- Must be able to manage multiple projects and regulatory filings on a timely basis
- Demonstrated planning, organization and project management skills

About our business

Our 93,330 km (57,900-mile) natural gas pipeline network is positioned in two of the most prolific and lowest cost basins in North America - the Western Canadian Sedimentary Basin (WCSB) and the Appalachian Basin. Our systems are well placed to meet the continent's growing demand for clean-burning natural gas by connecting the supply in these basins to important and growing markets across the continent. We supply more than 25 per cent of the clean-burning natural gas consumed daily across North America.
