Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

Business Analyst, Information ManagementReference Code: 89246 Location: Canada (CA) - Calgary, AB
Job Category: Information Technology/Systems
Employment Type: Employee Full-time
Relocation Eligibility: This position is not eligible for our relocation program
Application Deadline: 08/08/2021 We all need energy. It warms our homes, cooks our food, gives us light, and gets us where we need to go. It also improves our quality of life in countless other ways. At TC Energy, our job is to deliver that energy to millions of people who depend on it across North America. And we take our job very seriously. Guided by our values of safety, integrity, responsibility and collaboration, we develop and operate our facilities safely, reliably and with care for our impact on the environment. With our presence across the continent, our people play an active role in building strong communities. We're proud of how our hard work and commitment sets us apart and benefits society, every day. We're looking for new team members who share our values and are ready to take on exciting challenges.

The opportunity

Our Information Management team is evolving to meet the needs of our growing business. This team is critical in developing enterprise solutions and processes while ensuring the impact of the operational technologies are not interrupted. The Business Analyst, Information Management position requires detailed understanding of the complexities of Information Management and business processes as they relate to the end-user. A high level of collaboration and the ability to gain alignment to deliver on the needs of the business will be important success factors in this role.

What you'll do

- Identify project and/or operational requirements and their impact on systems by collaborating with key stakeholders across multiple disciplines and levels of the organization
- Establish and execute robust stakeholder management strategies/plans to create or maintain the optimal technical and non-technical digital solutions to the business
- Utilize your ability to present and sell the value of project work to various stakeholders in the business
- Come to resolution of complex functional / technical issues in collaboration with cross-functional

teams
- Provide and present recommendations on adjustments to plans to leadership and Business Clients as necessary to reprioritize and ensure delivery of highest impact commitments
- Support the development of change and communication strategies for successful implementation and adoption of solutions

Minimum Qualifications
- Completion of a post-secondary degree (business or computer science preferred)
- 4+ years of demonstrated related experience
- Experience with Information Management principles and best practices
- Experience with relevant technologies such as Power Automate, Power Apps and InfoPath
- Proven experience executing projects in a corporate business environment
- Advanced verbal and written communications skills including effective use of tools such as SharePoint, Power BI or MS Teams

Preferred Qualifications
- Strong analytical and problem-solving skills, including ability to extract and manipulate business data to represent insightful information
- Highly developed abilities to engage, communicate and influence stakeholders at all levels of the organization
- Experience within oil and gas / pipeline industry
