Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description
• Bring excitement, enthusiasm and commitment to the College's ICT Solutions for Business Program;

• Contribute to the regular and ongoing development of the Program including learning resources selection, as well as program and course curriculum design and revisions;

• Innovate, develop and deliver courses, labs and/or workshops in the classroom/e-learning;

• Engage students in the classroom, lab and distance learning environments, ensuring learner awareness of curriculum, track and provide constructive feedback/evaluation of academic progression using a variety of assessment tools;

• Actively advance student success by assisting, advising, coaching, and mentoring students with course choices, career possibilities and opportunities for life-long learning;

• Provide an environment that makes effective use of available resources based on cooperative learning theory while incorporating a variety of teaching and learning strategies to meet various learning styles;

• Participate in and contribute to special events at the program, school and college levels;

• Actively participate in departmental functions, initiatives and committee work; and

• Work in compliance with the Occupational Health and Safety Act.

Experience
Candidates must possess the following:

• Broad extensive experience in the ICT Solutions for SME industry;

• Experience with student success strategies, academic advising, and adult learning theories; and

• Proficiency with ICT Solutions methodologies, application design and ICT administration.

The ideal candidate will have:

• A minimum of five years of experience working in the field;

• Experience working with CISCO;

• Experience with e-commerce (for example, Shopify);

• Working with Indigenous students, faculty and community members;

• A Master's degree or 2 year experience lecturing, lab, tutoring, and e-learning at the college, university, community, or corporate level using innovative classroom presentation techniques;

• The ability to maintain and develop community, industry and government contacts;

• A commitment to education equity teaching diverse student populations and working with colleagues or clients from various backgrounds;

• Ability to excel in a team environment and a demonstrated commitment to life-long learning; and

• Previous curriculum and academic program development experience is desirable.

Credentials

Candidates must possess the following:

• Valid CISCO certification (CCENT minimum);

Education Requirements

Candidates must possess the following:

• A college, university or equivalent advanced certification that relates to ICT Solutions for SMEs;

The ideal candidate will have:

• A Master's degree or 2 year experience lecturing, lab, tutoring, and e-learning at the college, university, community, or corporate level using innovative classroom presentation techniques;

Essential Skills

Specific skills in some or all of the following areas would be beneficial:

• Business Software Solutions (ERP and CRM), Microsoft Dynamics AX, NAV, GP and CRM;

• E-commerce and mobile application development;

• Object Oriented Programming, Systems Analysis and Design, and Process Modelling;

• Network and Data Security, Mobile First Programming, IOS, Android, and Responsive Design;

• C#, ASP.NET, and Java;

• Web programming and design, XML, JSON; and

• Data management solutions (for example Sharepoint, .NET, BizTalk and Office 365) and SQL.
