Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

Job Number: R-1003917
Location: Regina, Saskatchewan
Closing Date: July 7, 2022
Worker Type: Permanent
Language(s) Required: English
Financial analysis expertise needed:
Contribute to the financial planning process through support of portfolio growth and profitability modelling systems.
What you'll do:
- Prepare and interpret complex model analyses
- Support and influence strategic and operational decision-making
- Evaluate financial performance, business opportunities and operational risk
- Participate in model development, maintenance and analytics

What we're looking for:
- Team player who seeks out opportunities to collaborate
- Experienced analyst with thorough knowledge of financial statements
- Conceptual thinker able to make value-add analysis and recommendations

What you'll need:
- A degree in accounting, commerce or business administration and at least three years of experience (or equivalent combination of education and experience); accounting designation is an asset
- In-depth knowledge of financial management theories, techniques, practices and trends
