Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

Position Description

We are looking for a talented and detail-oriented Storage/Backup Designer that can work quickly, efficiently and accurately in a fast-paced environment. The successful candidate will join a team of diverse and talented resources that manage sophisticated, scalable and reliable environments.

Your future duties and responsibilities

- Work with the Transition/Project team to deliver the Detail Design document.
- Perform design, provide an analysis of the feasibility and develop implementation strategies.
- Lead the design and presentation of Storage and backup infrastructure solution to TRB (Technical Review Board).
- Participate in configuration of the CGI's enterprise storage and backup Infrastructure.
- Works with other infrastructure teams and customers to design solutions of storage/backup and related technologies
- Understands, contributes to and promotes standards, guidelines and policies for the use and integration of storage and backup technology.
- Ability to conduct research into storage issues, standards, and products.
- Maintain detail design documents updated, illustrating the evolution and current state of the storage and backup infrastructure.

Required qualifications to be successful in this role

- 3-5 years of experience with design and implementation in a large enterprise environment.
- University or college diploma in IT
- ITIL certification an asset.

REQUIREMENTS:

- Good knowledge of Industry Standard best practices.
- Excels working in a team-oriented, collaborative environment.
- Bilingual (English & French) both verbal and written
- Ability to obtain a Government of Canada security clearance of Level II (Secret).
- Ability to produce clear and concise technical documentation
- Ability to implement complex business solutions according to technical and financial requirements

- Ability to negotiate and resolve conflicts in a sensitive business context
- Ability to communicate to different level people (technical and business)
- Ability to make clear decisions according to key elements
- Accuracy and detail-oriented
- In-depth knowledge of backup software from Veritas and CommVault.
- Excellent written and oral communication including the ability to create and present professional documentation.
*** Bilingualism (French and English) is required for this position due to the nature of the role requiring interaction with national and global clients
Insights you can act on
While technology is at the heart of our clients' digital transformation, we understand that people are at the heart of business success.
When you join CGI, you become a trusted advisor, collaborating with colleagues and clients to bring forward actionable insights that deliver meaningful and sustainable outcomes. We call our employees "members" because they are CGI shareholders and owners and owners who enjoy working and growing together to build a company we are proud of. This has been our Dream since 1976, and it has brought us to where we are today - one of the world's largest independent providers of IT and business consulting services.
At CGI, we recognize the richness that diversity brings. We strive to create a work culture where all belong and collaborate with clients in building more inclusive communities. As an equal-opportunity employer, we want to empower all our members to succeed and grow. If you require an accommodation at any point during the recruitment process, please let us know. We will be happy to assist.
Ready to become part of our success story Join CGI - where your ideas and actions make a difference.
